The meeting was held at the premises of the Fisheries Research Institute at Nea Peramos. The project's local coordinator presented to the fishermen project CHERISH and the value of their participation to regional stakeholder meetings as well as to ILEEEs. They were excited about the goals of the project and very interested to listen to the stories coming from CHERISH meetings at Tornio, Middelburg and Pafos. They were very interested in setting up a traditional open market right at their fishing port in order to have a direct contact with their customers and keep the fish prices low, supporting a traditional and sustainable fishing profession.</p> <p>Main outputs:</p> <ul style="list-style-type: none"> - Fishermen learnt about the meaning and goals of CHERISH - Fishermen got familiar with the people involved in the project and with the general philosophy of EU projects

				<ul style="list-style-type: none">- Participants found out how they can contribute to the project- Fishermen learnt about fishing tourism in Paphos and how they can open up to similar prospect in their lagoons
