Development Fund

RFC Recapture the Fortress Cities is an Interreg Europe project that aims to develop strategies to sustainably restore, maintain, and exploit urban forts and fortified cities. It will generate smart ways to capitalise on military heritage and bring fortresses back into the lives of cities.

So far, these have been our main events!

Our first meeting, back in September 2019!

Preliminary meeting in Brussels

Introduction of partners – partners presented their institutions, main activities, reason of participation and expected results of the project and briefly the policy instrument to be followed.

And in October 2019...

RFC Kick-off meeting in Antwerp

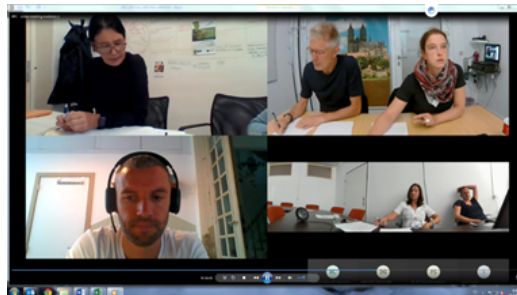

Representatives of all project partners participated in the RFC Kick-off meeting that was held in Antwerp, BE on 25-27 October 2019. During the meeting sessions, all the partners participated in the study visits to Herentals, Lillo and Zandvliet. They also celebrated the steering committee and the thematic workshop.

During 2020, the Pandemic year, all meetings were celebrated online.

2nd partner meeting, Teruel

Partners discussed about the project progress and established basis for future actions.

3rd meeting, Terezin

All partners participated in a virtual online study visit to the fortification of the town of Terezín. The thematic workshop, the topic was "Manage and maintain nature and the environment related to fortifications".

2021 has started with two online meetings in Magdeburg

4th online partners meeting in Magdeburg (Part I)

During the workshop, there were three presentations. The main topic was financing systems. Each partner put in common good practices of financing systems.

Magdeburg second meeting

All partners participated the past 9th of March in a virtual online study visit to Magdeburg. This time a variety of regional stakeholders presented their fortress-related projects to interested participants across Europe

Partners have also celebrated Stakeholders meetings

Czech Republic

Belgium

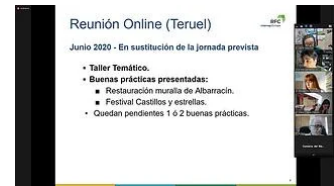

Romania

Slovakia

Spain

Germany
