NATIONAL LEGISLATION

The National Waste Management Act sets the obligations of the local authorities regarding organization and implementation of the system for separate waste collection.

The Mayor is responsible for:

Separate collection of waste, incl.: paper and cardboard, metals, plastics and glass;

The Mayor fulfills this obligation by concluding contracts with: :

1. Waste operators holding permits issued under the Waste Management Act and / or;
2. Other organizations holding permissions in accordance with the Waste Management Act for carrying out activities for collection, transportation, recycling and / or recovery of waste on the territory of the municipality.

SEPARATE COLLECTION OF PACKAGING WASTE

In six of the districts the introduced system has three containers / yellow, blue and green /. The containers are of the "Igloo" type with a capacity of 1,500 liters each.

CONTROL OF RETAIL OUTLETS FOR PACKAGING WASTE

Retail outlets by law have to:

- ✓ **develop internal rules** for organizing the system for separate collection of waste from paper and cardboard, metal, plastics and glass on the site;
- ✓ to collect separately waste from paper and cardboard, glass, plastics and metals;
- ✓ not to mix the packaging waste with other waste; да привеждат във възможно най-малък обем големите кашони и кутии;
- ✓ to hand over the separately collected waste to an **organization for recovery of packaging waste** or to persons holding a permit, complex permit or registration document issued under the Waste Management Act;
- ✓ to keep records and documents (contracts, weighing notes, etc.), which certify the delivery of the separately collected waste and to present them to the control bodies upon request of the inspection body.

Traders can also use the containers for separate waste collection on the territory of the municipality for households, when the amount of waste generated by their activities does not hinder the functioning of the municipal system for separate waste collection.

CONTROL OF RETAIL OUTLETS FOR PACKAGING WASTE

The Sofia Inspectorate is the control structure of Sofia Municipality. The inspectors carry out preventive, current and subsequent control of individuals and legal entities regarding compliance with the legislation, which is within the competence of the Mayor of the municipality.

CONTROL OF RETAIL OUTLETS FOR PACKAGING WASTE

A register of sites that are generators of packaging waste has been created and is maintained. The register is open, and information from the inspections is entered on a daily basis.

The register is updated, sites that have ceased activity are removed, as well as newly opened sites are added.
