

Open Information event

Thessaloniki, 10/05/2022

As a side event during the EMOBICITY workshop in Thessaloniki, CRES organized an **Open Information event** through invitation to the national public TV channel ERT3. The event gained extremely high visibility, as the national TV channel ERT3 wanted to cover the event and as a result, several workshop speakers gave interviews, promoting further EMOBICITY, the Interreg Europe program and e-mobility. It is also of high importance that at the end of the video, the presenter at the TV show specifically mentions EMOBICITY and Interreg Europe as promoting agents of e-mobility in Greece and Europe. The related information is expected to have reached several hundreds of thousands of citizens.
