## STAKEHOLDER ENGAGEMENT REPORT

***North East Romania, 02.02.2022***

### **Stakeholder event, semester 6, Working on Cross-Regional Synergies**

During the fifth and sixth semester, North East Romania Development Agency, Lodzkie Region and Veltha worked on the exploration of cross-regional synergies in the RIS3 sectors, with the aim of highlighting interregional opportunities for cooperation among local stakeholders in promoting the transition toward a circular economy in the textile sector.

Several meetings were organized, involving key stakeholders coming from the different regions to discuss potentials and capabilities for circular economy in the textile sector, exploiting the complementarities among the regions.

The online stakeholder meeting took place on February 2nd, with roughly 10 participants representing key stakeholders from the different regions, active in the textile sector.

The discussion allowed the regions to describe their sectoral expertise in the textile sector, highlighting complementarities and possible areas for cooperation.
