

4th Circularity Tour

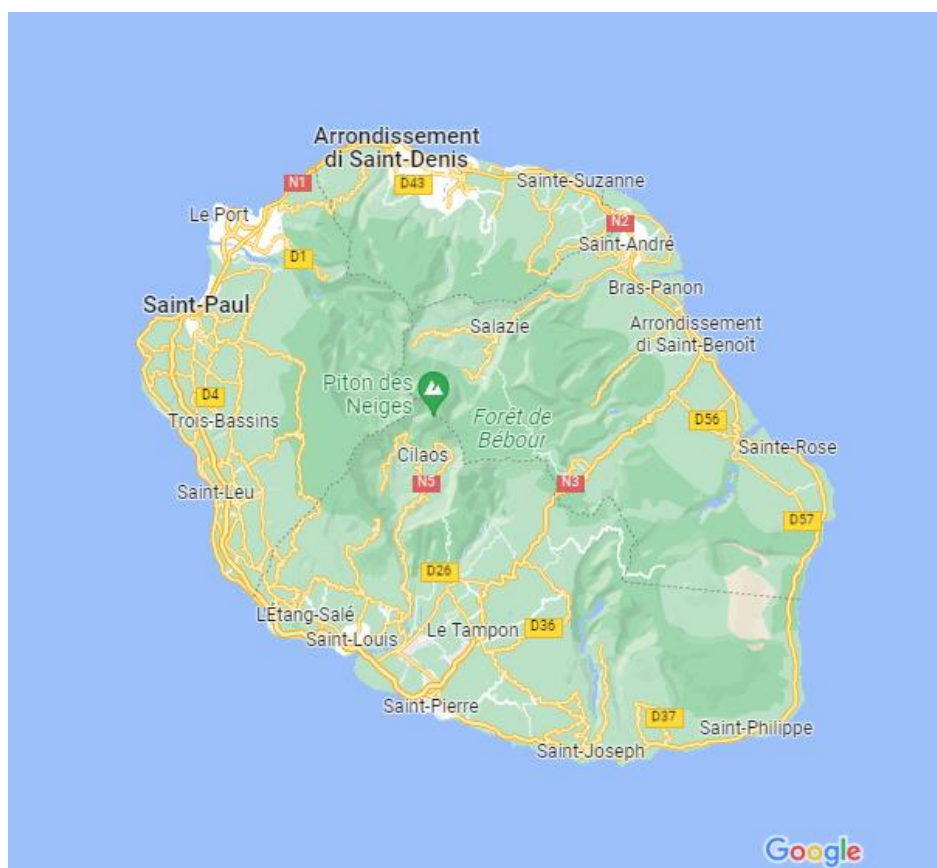

31 May – 3 June 2022, La Réunion (France)

Nexa, the Regional Agency for Development, Investment and Innovation of Reunion Island, is organizing four days of visits to the island and meetings as part of the Interreg REPLACE project from May 31 to June 3, 2022.

During these four days, the partners of the REPLACE project will discover good practices of circular economy implemented in Reunion Island. This operation aims to:

- promote local know-how in terms of circular economy,
- to reinforce the image of Reunion Island at the European level,
- to promote the economic assets of the territory in the sectors implementing circular economy solutions.

The circularity tour across the island will be the opportunity to have a field contact with the La Réunion's case for circular economy.

During the Circularity Tour the consortium visited:

Ti Tang Récup

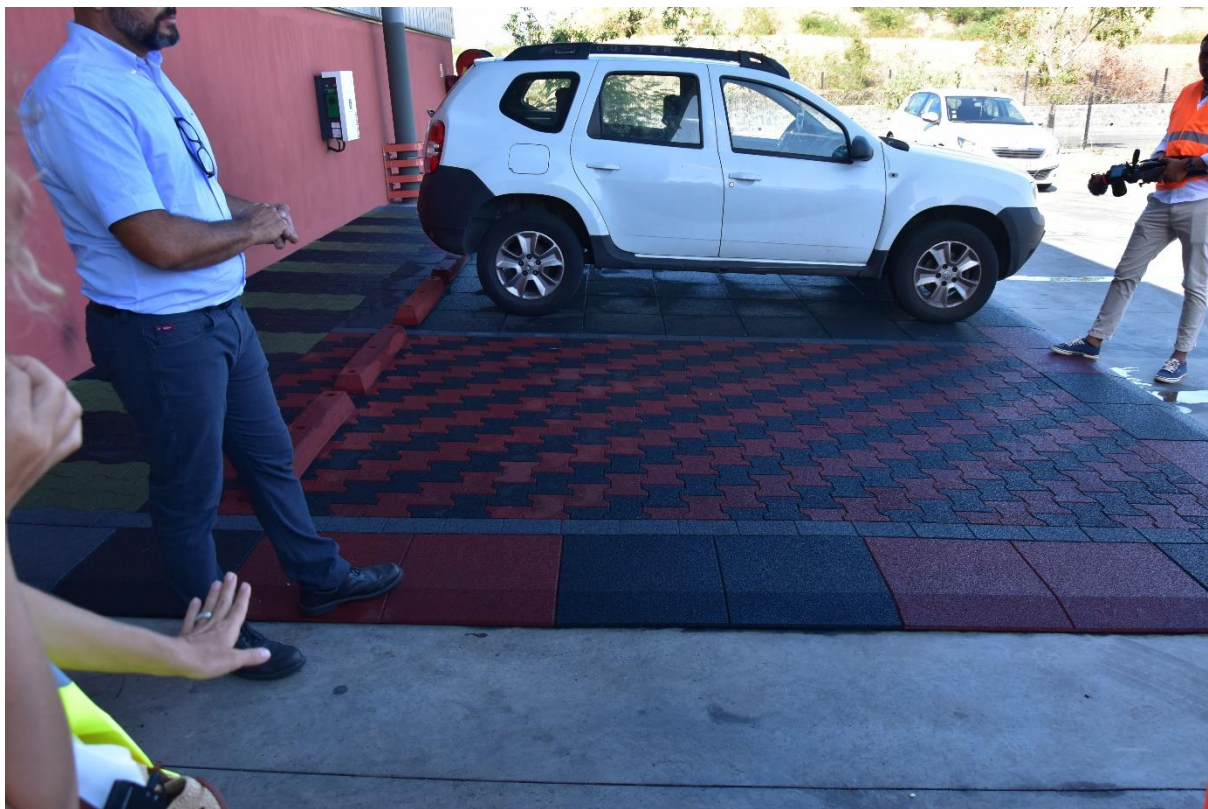

Enterprise working in the circular recovery of textile materials, while exploiting an important social role promoting employment: the social enterprise receives funding at local level to combine circular and social objectives. <https://www.titangrecup.com/>

Solyval

Solyval is the first company in the Indian Ocean area to recover and recycle used tyres. For 15 years, SOLYVAL has been the top company established in Réunion in the recovery and recycling of used tyres. More than 6,000 tonnes of used tyres are transformed each year. The goal is to absorb more than 50% of the recycled aggregate deposit and transform it into moulded products for the local and regional market. <https://www.solygom.re/en/solygom-2/>

ALIE OTE BIKE

Oté Bike is a permanent integration workshop which trains more than twenty employees per year in the assembly and electrification of cycles. Solidarity and eco-responsible, Oté Bike also aims to promote the use of bicycles to encourage business travel and the transport of goods. The principles of circular economy are here exploited to create new bikes and to promote social inclusion.

VIMR

The VIMR resource center is a structure that allows you to collect objects that are no longer used by their owners. It has a recovery, recovery and resale centre. Priority is given to the reduction, reuse and recycling of waste, it also helps to raise public awareness of respect for the environment. La Ressourcerie sets up the collection of objects and their recovery with the aim of reusing or even recycling them. La Ressourcerie has a social vocation, it acts on local development by creating jobs and develops a network with many partnerships around the solidarity economy. It offers local services to the population, it promotes the emergence of eco-citizen actions, the resource center also contributes to improving the quality of life in its territory. <https://www.vimr.fr/>
