# PIEMONTE REGION

- 4.2 M of inhabitants
- 25.000 km<sup>2</sup> of surface
- Half of the territory is in a mountain area
- Economics is nowadays based on services and in the past on car industry
- Internal gross Energy Consumptions are mainly based on natural gas (55%)
- Final energy consumptions are about 10 Mtoe
- Renewables are about 20% of final energy consumptions
- CO<sub>2</sub> emissions are decreasing at about -27% since 1990

# RENEWABLE ENERGY COMMUNITIES

- Establishment of an help desk service for the promotion of RECs
- Organization and participation to public events about RECs
- Stakeholders discussions around legislative production and definition of official regional remarks
- RECs mapping
- Update of the regional Guide on RECs

# ENERGY EFFICIENCY IN PUBLIC BUILDINGS

- Development of a technical service for the phase out from natural gas in the public building sector
- Preparation of guidelines for the drafting of SECAPs at local level
- Organization of communication events and promotion of best practice for their replication
- Communication campaign (Piemonte is opinion leader of “Italia in classe A” campaign promoted by ENEA)

The screenshot shows the website for the 'Italia in classe A' campaign. The main header includes the 'Italia in classe A' logo, the title 'Campagna di Formazione e Informazione sull'efficienza energetica', and the ENEA logo. A navigation menu contains links for Home, Progetto, Iniziative, Formazione, Prodotti, YouTube-Social, News&Eventi, and Contatti. The main content area features a section for 'Regione Piemonte' with a sub-header 'REGIONE PIEMONTE' and a text block describing the region's commitment to the 2030 Agenda through the SRSvS (Sviluppo Sostenibile) strategy. A 'NEWS' sidebar on the right lists recent updates, including a report on the real estate market and a directive on 'Case Green'.
