Structured discussion (11:20-11:55)

- **Interregional learning and exchanges**
- **Challenges and opportunities**

Conclusions (11:55-12:00)

SMART   GOVERNANCE

Regional Innovation Governance
Introduction

SMART **GOVERNANCE**

- **Regional innovation governance** is all the processes of interactions among various actors that together determine the priorities, strategies, activities and outcomes in research and innovation at the regional level.

- **Regional innovation governance** consists of a large view of the rules, actions and institutions meant to coordinate the regional innovation ecosystems.

- **Novel policy paradigms** such as Mission-Oriented Innovation Policy (MOIP), Responsible Research and Innovation (RRI), Smart Specialisation Strategies for Sustainable and Inclusive Growth (S4+), and Transformative Innovation Policy (TIP) imply more inclusive and experimental governance models **to solve societal challenges.**

- **The OECD observatory of public sector innovation (OPSI)** introduced the concept of anticipatory innovation governance.
