Integrated ticketing in Umbria

- **Aim:** to create:
 - a fully integrated ticketing and pricing solution including all the existing means of collective transport in the region of Umbria (trains, buses, ferries, cableways, etc).

Population and mobility in Umbria

900k inhabitants

416k journeys per day

Ferrovie dello Stato Italiane Group
operating **all** the services of the local public transport

Intermodality in Umbria

Locals and tourists using several means of transport throughout the region but mostly using cars.

Roadmap

Electronic
ticketing

Smart
Card

Minimetro
Gates

C-less
payment

Study of
fares

Revenue
sharing

UmbriaGo Ticket Options

Four ticket options:

Umbria.GO 1, 2, 3 and 7

Price: 15, 26, 33 and 45 euros respectively.

Children under 12 years: 50% discount.

The ticket is personal and non-transferable and must be validated the first time it is used.

Outstanding Issues

Umbria.GO tickets are a significant evolution, however there are two key outstanding issues:

- the tickets still depend on paper support and manual control.
- pricing and revenue sharing systems need to be fine-tuned.
