

## Knowledge hub: Learn according to your needs

When designing and delivering better regional policies, one can learn so much from the experience of other people around Europe. **And if you don't have the time or the resources to travel abroad, various solutions exist now online in our Knowledge hub!** Within the **Policy Learning Platform**, our thematic experts analyse and put together all the knowledge of regions participating in Interreg Europe projects, enriched by the latest news and trends in the field. The Knowledge hub works as well as a repository of all the lessons learnt from the activities organised by our platform. The result is **an array of learning possibilities, available at one click away!**

Peer review  
reports

Policy briefs

Webinar replays

Peer reviews allow regions to discuss their policy challenges with like-minded peers from all over Europe. **Hands-on advice and concrete recommendations** for policy practitioners are elaborated on spot, offering inspiration for the peer review hosts and anyone active in the tackled policy areas.

Our experts regularly publish **concise summaries** of policy trends tackled by practitioners working in local and regional authorities across Europe. You will have insights into the latest developments, valuable examples and key factors for success and impact.

We regularly organise webinars to dive into specific **policy challenges**. If you can't make it on the day of the webinar, all recordings are available online! From mission-oriented innovation policies to creative hubs, our Knowledge hub gathers a diversity of topics.
