INFORMATION NEEDS FOR DECISION MAKERS
From Wallonia to Basque Country

Marta Iturribarria

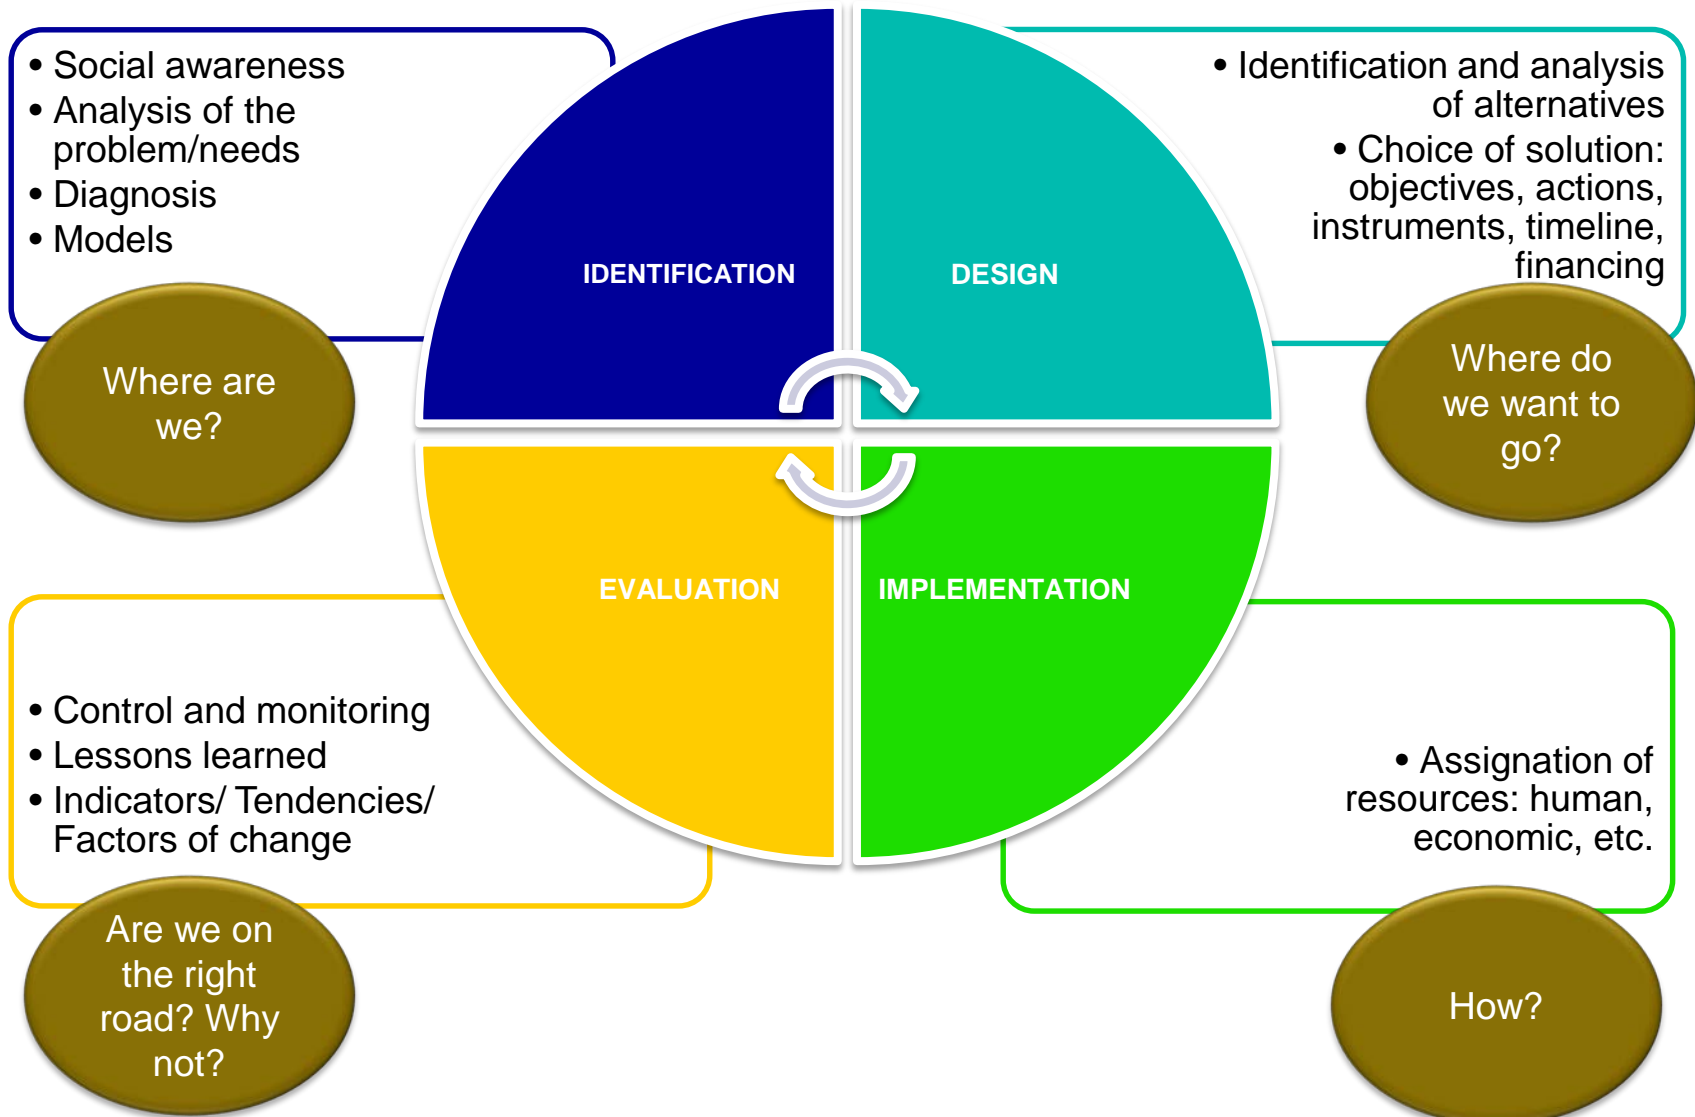

Basque Government

hari-berdea@euskadi.eus

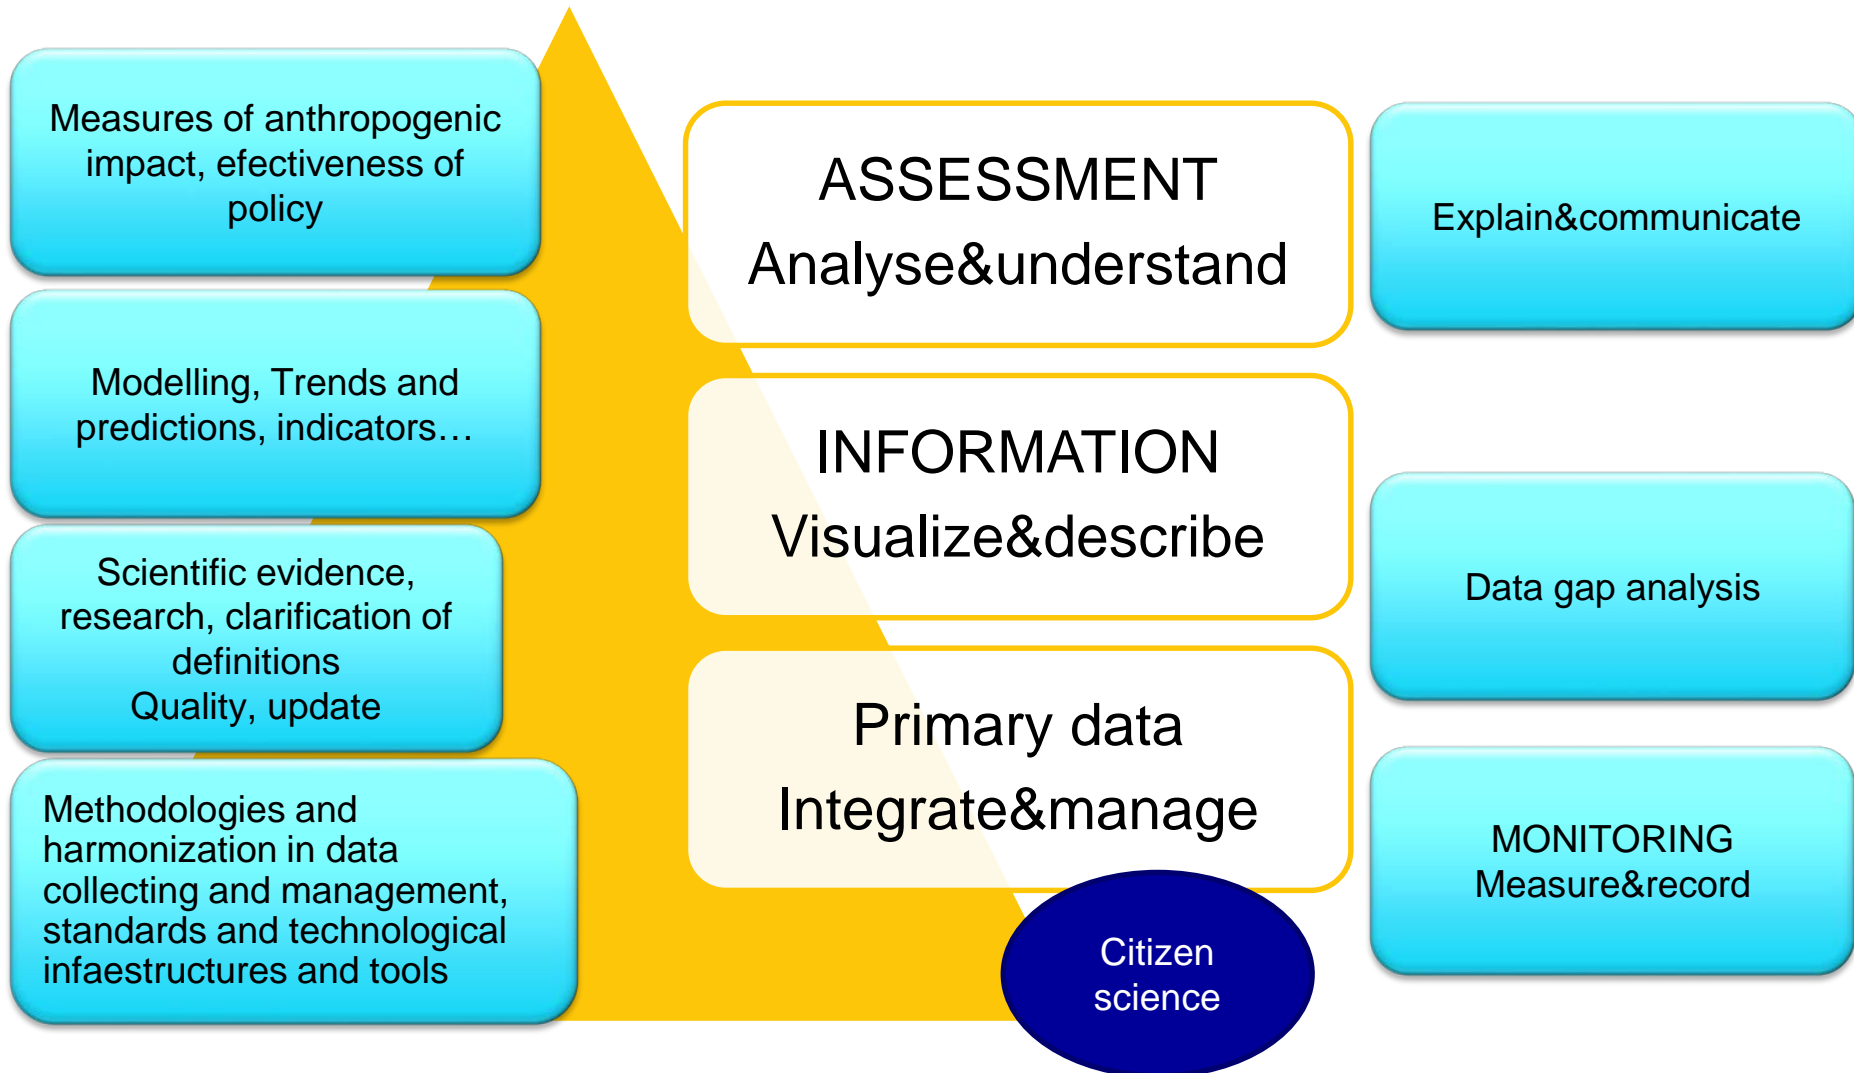

1st thematic Workshop in Wallonia 22-23 February 2017

Decision making process

From data to knowledge

Maching information to needs

The information we need, is it available or not?

1. Collect and analyse the information – metadata catalogue

- Who has what type of data
- In what form or format
- In what state of digitization
- Accessible or not
- Fitness-for-use?

2. Identification of data gaps / limitations of available information

3. Prioritisation of demands for data (new data capture) / actions to make data digitally accesible

4. Quality assurance, research and appropriate methodologies needed, indicators definition, data mining,...
