

CRE:HUB | Representatives from University of Latvia and LIAA Creative Industries Incubator exploring culture and creative industries in Friuli Venezia Giulia region

25.05.2017

The 3rd CRE:HUB study visit took place on 3-4 May in Trieste (Italy), hosted by Autonomuos Region Friuli Venezia Giulia. Over 30 participants visited important cultural, entrepreneurial and creative hubs of the in Trieste, Aquileia and Udine.

On the first day of the visit, the mission and activities of [FVG Film Commission](#) was illustrated. The participants had an opportunity to visit some of the most famous shooting locations in Trieste, as well as to find out how the film industry works and how it stimulates other productive activities.

On the second day, the participants visited the archaeological site of Aquileia to discover more about conservation and restoration operations and the valorization activities carried out by [Fondazione Aquileia](#), the body in charge of the management and enhancement of the archaeological site of Aquileia.

In the afternoon the study visit continued in [Friuli Innovazione](#) Research and Technology Transfer Centre, where some outstanding examples of creative start-ups were introduced and whose testimonials presented their experience and future projects: [CREAA](#), [infoFactory](#) and [Mobile3D](#).

The journey to the cultural and creative points of interest in Friuli Venezia Giulia Region closed with the BarCamp, that gave the occasion to partners and stakeholders to go in depth with the application and transferability of best practices proposed in the project.
