## Focus on Good practices

Under the coordination of **FGM-AMOR** – advisory partner in School Chance - for the Exchange of Experience actions, **43 Good Practices implemented in the partners territories and across Europe** within the four themes of school mobility management (infrastructure, participation, communication and information) have been selected by the partners and then shared.

The main goals of the Exchange of Experience are:

- to identify, analyse and transfer good practices / excellent initiatives concerning school mobility of European regions and cities in order to improve the policy instruments via Regional Action Plans
- to enforce the role of schools to stimulate and involve students and colleagues in adopting sustainable mobility good practices

School Chance foresees some expected outputs related to GPs:

- **A GOOD PRACTICE REGISTER** containing GPs from the consortium members and other organisations
- **7 STUDY VISITS** organised to study identified GPs
- **6 TRANSFER WORKSHOPS** to make sure that the selected GPs are successfully transferred
- **6 REGIONAL ACTION PLANS** will set out the partners' agreed proposals for improving their target policy instrument
- **6 POLICY INSTRUMENTS** will be improved (4 ERDF, 2 others) on the basis of GPs transferred

Discover more about the Study visit on our website: [www.interregeurope.eu/schoolchance/news/news-article/2182/focus-on-good-practices/](http://www.interregeurope.eu/schoolchance/news/news-article/2182/focus-on-good-practices/)

## School Chance Project Management Group Meeting #2

From 17 to 19 October 2017, the **City of Gdansk**, Poland, hosted SCHOOL CHANCE partners for the **second Project Management Group Meeting (PMG2)** and for the **first Thematic Training on Communication**.

Partners had the possibility to exchange on a first monitoring of what the Project has done so far and to share and plan many important actions and further step to be implemented in the next months.

Partners also exchanged their experiences on the work they are doing with their local stakeholders groups and in collecting data about home-school behaviours of students.

The Thematic Training on Communication, coordinated by the advisory partner FGM-Amor, was aimed to improve the capacity of the partner organisations and members of the local stakeholders groups in the realisation of communicational activities and campaigns tailored to students.

Thanks to a mix of presentations and interactive activities, such as role play and showcase of ongoing communication activities, the participants could work together on different aspects of communication and learn how to improve the effectiveness of ongoing and future campaigns targeted to children.

## Focus on School Chance partners

**Gdansk** is the largest city in the Pomerania region of northern Poland. Situated in the Bay of Gdansk at the mouth of the Vistula River on the Baltic Sea, it is Poland's principal deep-sea Port.

Do you want to know more about the city of Gdansk and its work within the School Chance project? [Discover more on our site!](#)

## News from partners

The City of Reggio Emilia, within the **CIVITAS Programme**, has organised [a workshop and a study visit for 6 cities](#) (Krusevac, Labin, Leon, Strangnas, Soissons, Sarajevo) across Europe willing to improve school mobility management policies.
