Interregional collaboration in a post-Brexit world

Michael Barnes

Head of European Programmes

Greater Cambridge Greater Peterborough Enterprise Partnership

Stockholm, 21 February 2018

- The Brexit process
- Post-Brexit collaboration

The Brexit process

The uncertainty of Brexit

Single Market

Customs Union

Financial Settlement

Hard or soft Brexit

Four freedoms

Labour market mobility

Maritime space

Free Trade Agreement

Cross border cooperation

Irish border

Access to EU funding

WTO

Countdown to Brexit: key events

Existing EU co-operation models

EFTA. Free movement, pay for access to single market and EU benefits. Not in customs union

Free Trade Agreement

WTO rules – how we now trade with US, Japan, etc, but bilateral rather than part of EU

EFTA but with multiple bilateral agreements

Customs Union – with an eye on future membership

Whatever is agreed ...

“No final trade deal before Brexit”

Guy Verhofstadt

Post-Brexit collaboration

Territorial Co-operation Programmes

What does future EU co-operation look like?

Cohesion Policy

Help us build it!

Which challenges should this policy address after 2020 and how?

#EUHaveYourSay

Why co-operate?

“Interreg provides a platform for public administrations, national, regional and local authorities, civil society, NGOs, academia, the private sector and enterprises to cooperate across national borders and across sectors to share the responsibility of delivering jointly agreed objectives.”

INTERact Ideas for Interreg post-2020

Cambridge

Peterborough

- Cambridge - building on strength in the knowledge economy and translating world-leading research into commercial benefits
- Peterborough - Smart City using use new technologies and new thinking to drive growth, sustainability and prosperity
- Key sectors: life sciences, agri-tech, aerospace and defence, digital and creative, cleantech, advanced manufacturing

Sharing sustainability best practice

smart **LIFE**

Quality buildings using
new skills and innovation

- East of England working with UK government and EU institutions to help shape UK–EU territorial cooperation post-2020
- European Commissioner and DG REGIO “open minded” on future UK participation
- UK government evaluating ETCs for value for money, added EU value, legacy and sustainability, and the wider use of ETC solutions to determine future UK participation
- Dependent on agreed principles of access to EU funding instruments, e.g. Norway model?

- Next generation of Territorial Co-operation Programmes
 - With GBP replacing ERDF (e.g. Norway)?
- FP10 research and innovation
 - But under what access conditions?
 - Universities and SMEs
- No access to EU funding
 - Build on existing partnerships and project outcomes
 - Innovative financing models
 - Bilateral trade deal spin-offs
 - Informal twinning / MoU

Transnational collaboration: broadening horizons and raising ambitions
