Scotland, in common with other European regions, is facing an increasing mobility demand while coping with higher congestion levels. Undoubtedly, there is a strong need to increase the use of sustainable transport modes; promoting intermodality, technical innovation and the use of cleaner and more efficient systems.

The REGIO MOB (https://www.interregeurope.eu/regio-mob/) project involves seven European partners with the main objective being to ensure sustainable growth in Europe by promoting sustainable mobility and improving the relevant policy instruments in each of the participating regions. The REGIO MOB project partners are as follows:

- Regional Association of Lazio Municipalities, Italy
- Institute of Traffic and Transport Ljubljana, Slovenia
- Niepolomice Municipality, Poland
- Regional Development Agency South-West Oltenia, Romania
- Region of Western Macedonia, Greece
- SEStran, Scotland

At our Sustainable Mobility Conference, the REGIO MOB partners will be presenting experience from Europe and their plans to improve their region through sustainable mobility policies and actions. The event is a fantastic opportunity to network with transport colleagues and politicians from across Europe and to learn from their experience.

Tickets are free and lunch will be provided.

Tea and Coffee will be provided at the start of the conference.

**TICKETS ARE LIMITED**
