COMMUNICATION AND DISSEMINATION
Semester 4
As indicated by the activities of the communication and dissemination of the FINERPOL project, AGENEX has developed several actions in order to give more visibility and dissemination to the project.

**The main activities are:**

- Organization of interregional dissemination activities
- Upgrading of existing web information
- Design and elaboration of communication tools like projects newsletter, published dossier about interregional events...
- Participation in annual Interreg Europe events
FINERPOL
Communication and dissemination

DISSEMINATION ACTIVITIES
During the 4th semester, 9 dissemination activities were developed coinciding with the Interregional Events.

1. Coinciding with the Interregional Event 7 in Estonia, was held a joint conference on innovative financing schemes and good practices in the financing of energy efficiency in the social housing sector between FINERPOL and Social Green projects.

   Extended information about this activity can be found in the document “Annex II: 7th Interregional event”

2. The 8th Interregional Event Portugal was held in Porto and Matosinhos, and organised by CEiiA.

   Extended information about this activity can be found in the document “Annex II: 8th Interregional event”

Also, several dissemination activities were organized in Semester 4 with the aim to disseminate the development of project activities.

1. Seminar of corporate social responsibility associated with construction and auxiliary sectors, September 2017
2. 1st Ex-Ante Assessment & 2nd Stakeholders meeting, October 2018
3. Policy Learning event in Seville, 17th-18th October 2018
5. A roundtable discussion on "The model of energy services in the integral rehabilitation of buildings" at FICON. March 2018
6. Workshop on Green Solutions Financing in Athens, 28th February 2018
7. EnerInvest Conference on financing energy efficiency
8. FINERPOL dissemination seminar in Prague (23 March)
9. Interregional seminar of Support project in Seville
10. FINERPOL participates in a green mortgages workshop
Seminar of corporate social responsibility associated with construction and auxiliary sectors

September 25th 2017

The objective of these conferences was to raise awareness among the agents that make up the construction sector as Socially Responsible Companies. The benefits at European, national and regional level.
PROGRAMA

16:30-17:00 - REGISTROS, CAFÉ Y NETWORKING (Inscripción previa)

17:00-17:30 - INAUGURACIÓN: D. José María Vergelés Blanca. Consejero de Sanidad y Políticas Sociales.

17:30-18:15 - BLOQUE 1. CERTIFICACIÓN DE EMPRESAS SOCIALMENTE RESPONSABLES EN EXTREMADURA. Dña. Mª Sandra Pacheco Maya. Directora General de Trabajo:

2. Experiencia de empresa constructora certificada. Ponente: Responsable de la empresa GRUPO POBLADOR.

18.15-18.45 - BLOQUE 2. LA SOSTENIBILIDAD COMO VEHÍCULO DE INNOVACIÓN EN LA CONSTRUCCIÓN. Dña. Mª Ángeles López Anado. Directora General de Arquitectura

Retos del sector de la construcción hacia un uso sostenible de los recursos en el marco de la economía circular.

Clausulas sociales y medioambientales en la contratación pública.

Dña. Laura Castel. Jefa de unidad de planificación y coordinación en materia de contratación.

19.30-20.15 - MESA DE TRABAJO – DEBATE.

Recibir propuestas y sugerencias del sector de la construcción para la licitación pública y la RSE.

Moderador: José Manuel Jover Lorente. Letrado General de la Junta de Extremadura.

Participantes: Responsable de la empresa MAJOIN S.L. Ingeniería, Construcción y Medio Ambiente.
Responsable de la empresa GRUPO POBLADOR.

20.15-20.30 - CLAUSURA DE LAS JORNADAS.
1st Ex-Ante Assessment & 2nd Stakeholders meeting, October 2017

In 5th of October 2017, the Western Macedonia University of Applied Sciences (TEIWM) initialized the procedure of the Ex-Ante Assessment of the Regional Action Plan.

At the workshop, at least 30 representatives of the following municipalities, institutions, organizations and companies were present: Municipalities of Florina, Prespes, Kozani, Deskati, the Mayor of Servia-Velvento, ANKO SA, Public Power Corporation Renewables (PPCR), the Head of the ROPWM, the head of the Technical Chamber of Greece/Western Macedonia Department, ESCO companies, CERTH/CPERI, etc. Earlier, at 11.30 the 2nd Stakeholders Group meeting took place as well.
Policy learning event in Seville, 17th-18th October

Interreg Europe Program organizes a Policy learning event on energy and resource efficiency on 17th and 18th October in Seville.

The Mediterranean Three Cultures Foundation will host various conferences addressed to the partners of the different projects of Interreg Europe, as well as representatives of the managing authorities of the Structural Funds programs and other political actors involved in the improvement of the policies regional cooperation in the field of energy efficiency and resource efficiency.

This event was joined by the FINERPOL project, financed by Interreg Europe and led by the Extremadura Energy Agency. Javier Ordoñez, Head of the International Projects Area presented a best practice in the use of Financial Instruments in energy efficiency for buildings, as well as on their advantages and disadvantages in Extremadura and Spain.
A roundtable discussion on “The model of energy services in the integral rehabilitation of buildings” at FICON

Don Benito, Extremadura (Spain)

The Extremadura Energy Agency, in collaboration with the Directorate General of Architecture of the Junta de Extremadura, organized last Friday at FICON (Iberian Construction Fair) a roundtable discussion on "The model of energy services in the integral rehabilitation of buildings".

The table, which is part of the European project FINERPOL - Financial Instruments for Energy Renewal policies, whose objective is to promote new policies that give financial support to the energy rehabilitation activity of buildings.
Each of the speakers made a brief intervention on the current framework and perspectives of the integral rehabilitation in buildings, and offered a diagnosis of the ESE market (energy services companies) in Spain, making known the contribution of the same in the energy sector. Among the opportunities offered by the ESEs, the savings in the bill, the energy renovation of the facilities and a greater confidence in energy efficiency technologies were highlighted. On the contrary, it was pointed out that currently there is a distrust on the part of the client in this ESE model due to the little information that exists in this respect and some other barriers such as lack of financing and bureaucratic processes with complex contracts.

The analysis of the current situation in Extremadura highlighted the existence of a large housing stock that needs to be rehabilitated, a high percentage of housing protected families with families with limited resources to undertake any reform and an ageing population with difficulty accessing any type of loan when it comes to rehabilitating your home. The lack of subsidies and incentives to support this type of intervention, the role of banking or the need for a financial instrument that can support the energy rehabilitation activity of buildings were topics to be discussed. All present agreed on the need for the complete rehabilitation of buildings with the consequent reduction of CO2 emissions and also meet the deadlines imposed by the EU.
7th Interregional Event in Tartu and Tallin, Estonia,

January 16th – 17th 2018

From January 16 to 18, the cities of Tartu and Tallin hosted the 4th Project meeting of Social Green and the 7th Interregional Event of FINERPOL project which included a Political Board Meeting, workshop and study visit.

The Tartu Regional Energy Agency (TREA) hosted this joint seminar on innovative financing schemes and good practices in the financing of energy efficiency in the social housing sector. There were several visits and discussions about energy efficient renovation of residential buildings in different cities.

The guests were introduced to Estonia’s successful experience with the Kredex financial scheme and its results, plus the initiatives in Tallinn city in relation to municipal housing.

The meeting lasted for three days, between 16–18 January: the two first days in Tartu, third one in Tallinn.
Final dissemination event in Greece, February 2018

The meeting was organized jointly by TEIWM, the Technical Chamber of the Greece / Grevena division and the Grevena Prefecture on February 22nd at the Grevena Prefecture Hall.

The final meeting of the FINERPOL stakeholders took place in the meeting room of the head of the Grevena prefecture, Mr. Simandrakos Evangelos. The final title of the regional action plan was announced to the stakeholder group: "Urban heating projects with the use of biomass and relevant resources for the exploitation of renewable energy sources in public buildings in the municipalities of Western Macedonia: the example of Deskati Grevenon
Subtitle: The connection to the policy instrument of Axis 4 of the ROP2014-2020 and the use of complementary financial instruments for the expansion of district heating on a larger scale."

The agreement of the interested parties is necessary for the conclusion of the action plan. All interested parties agreed on the title and conclusion of the specific action plan.

"M'illumino di meno" event

The Finerpol project participated in the "M'illumino di meno" event held at the Buonconsiglio castle in Trento on Friday 23rd February. This event, which takes place jointly in a lot of Italian cities and municipalities with multiple initiatives, aims to raise awareness of citizens on the topic of energy saving and in Trento it has been an opportunity to illustrate also the European cooperation activity put in place by the Province.
During the event, during which the Cosmic Trio performed in concert, with soft lighting, the various projects carried out by the province on the subject of environmental and energy saving were illustrated, such as the European Lifeprepair, FINERPOL and Imeas projects, the provincial contributions for the electric mobility and the energetic requalification of the condominiums, the paths of education and training in the schools, the cycle competition Trentino pedala.

**EnerInvest Conference on financing energy efficiency**

**Madrid, March 2 2018**

AGENEX, lead partner of FINERPOL, participated on March 7 in the event "Financing of energy efficiency in Spain through European initiatives and programs", organized by the ENERINVEST project, which was held in Madrid.

The conference presented the current situation and evolution of initiatives and financing programs aimed at improving energy efficiency, which seek to leverage private financing. The principle of putting energy efficiency as the first element of action, established in the "Clean energy for all Europeans" package of the European Commission, is linked to the implementation of public-private financial instruments in this area, in addition to the multilevel implementation of energy efficiency policies throughout Europe.

In addition, during the second part of the event were presented new initiatives funded under the funding programs of the European Commission, whose main objective is to promote energy efficiency (especially in buildings) by implementing new financing alternatives or methods to increase the trust of clients and financial institutions.

Javier Ordoñez, Head of International projects of Agenex, presented a combination of European funds for rehabilitation financing.
ENERINVEST is the national reference platform for financing Sustainable Energy Projects; an information, meeting and dialogue platform between the main players in the sector with the aim of providing technical, legal and financial solutions to energy efficiency and renewable energy projects promoted both by the public sector and the private sector.
Workshop on Green Solutions Financing in Athens

The University of Applied Sciences of Western Macedonia (TEIWM) presented the FINERPOL project and the good practices of financial instruments for energy renovation policies.

The conference aims at creating and supporting networks of SMEs Business (SMEs) towards innovation and green growth. The event was held at the National Center for Public Administration in Athens on February 28. Mr Dimitris Tsiamitros from TEIWM, who raised an interesting debate on good European and Greek practices on technical support and complementary financial instruments for energy renewal policies.

The General Secretariat for Trade and Consumer Protection of the Ministry of Economy and Development participates as a partner in the GRASPINNO project (Interreg MED 2014-2020), which focuses on "green" public procurement contracts for the energy upgrade of public buildings and aims at creating and supporting networks of SMEs Business (SMEs) towards innovation and green growth.

Attendees included authorities responsible for public procurement of building renovation works, SMEs in the energy efficiency sector, ESCO and investors, such as Public Power Corporation, representatives of the Greek ESCO registry, representatives of the Technical Chamber of Greece, etc.

Interregional seminar of Support project in Seville, 16th March 2018

The Finerpol Project, financial instruments for energy renovation, was invited to the last day of the Interregional Seminar of Support Project held at the Palace of the Marquises of La Algaba in Seville on March 16.

The event, which brought together participants from eleven countries of the European Union, had as its main objective to address low-carbon economy strategies aimed at municipalities.
Agenex, lead partner of the Finerpol project, made a presentation on Financial instruments for energy efficiency schemes with EU participation created to provide finance on a complementary basis from the Union budget to address EE policy objectives of the Union.

After that led two focus group about how to use financial instruments to support energy efficiency in public buildings, public infrastructure and residential sector. During the roundtable, experiences and opinions were shared on the use of financial instruments and on what measures should be considered for the renovation of public and private buildings. For most of the participants, the most used are grants or loans.

**FINERPOL participates in a green mortgages workshop**

On March 22, the Green Building Council organized a workshop in collaboration with Triodos Bank, on the definition of a standardized European mortgage for energy efficiency - will take place in Madrid.

The Finerpol project was invited to this Workshop as an initiative of reference in the national and EU panorama, which can contribute its vision from the experience of financing analysis in energy renovation of buildings.
This event was part of a cycle of workshops that have taken place in 10 European countries to communicate the Green Energy Efficiency Mortgage Project, EeMap.

The growing interest in financing energy efficiency that, for different reasons, governments at all levels, the regulator, investors, financial intermediaries and users have, is the reason why this workshop was organized.

The financing of energy efficiency is a relatively new area in the financial world, with general difficulties and peculiarities that add special complexity in the case of building, characterized by small interventions of very different types.

FINERPOL dissemination seminar in Prague, March 2018

On 20 March 2018 a FINERPOL dissemination seminar was held in Prague. The meeting was attended by the representatives of the University Centre for Energy Efficient Buildings, Czech Technical University in Prague (CTU UCEEB) and the Ministry for Regional Development, the Managing Authority in charge of the policy instrument that is being reviewed.
As the announcement of public procurement to appoint the Fund Manager is expected in due course, the Managing Authority requested for the meeting to be closed to other stakeholders.

CTU UCEEB presented the results of the questionnaire directed to the beneficiaries of the prepared financial instrument. The collected data are used to verify the set-up and conditions of the financial instrument and to finalise the ex-ante analysis. The Action Plan for the second project phase, including PR and dissemination strategy has been agreed.
On May 10 and 11, the cities of Matosinhos and Porto hosted the event that marked the end of the first phase of the FINERPOL project.

The event brought together project partners, stakeholders, local, regional, national and European management entities in the thematic areas of housing, energy and urban rehabilitation, as well as entities of the financial sector, addressing the financing of investments in energy efficiency.

On the morning of the 10th, an internal project meeting took place, where the partners shared the status of project outputs, including Good Practices, Ex-Ante Assessments and Action Plans. Strengths and weaknesses of the Learning Process were identified and financial and communication issues were discussed.
CEiiA - Centre of Engineering and Product Development - City Lab, as a project partner, promoted a public seminar on “Financing Energy Efficiency in Urban Rehabilitation”, in the afternoon of the 10th, in its facilities. Several financing modalities were presented, as well as examples of successful implemented projects, from different European regions.
On the morning of the 11th, partners and stakeholders gathered for a Learning Camp promoted by AGENEX, the Lead Partner. Through group dynamics, all participants had the opportunity to reflect on the Action Plans presented by each partner.
