*Gloucestershire,  
England*

# What is Your Green Future?

An interactive event for  
young people, teachers  
and businesses exploring  
a low carbon future

# Why it's important?

- Youth unemployment
- Growth of low carbon economy
- Skills shortage

# What happens at each event?

Hands on

New  
Technology

Creative  
workshops

# Themes

Reducing  
waste

Low carbon  
products

Energy  
management

# Results:

- Engaged with;
- 1,600 13 -19year olds
  - 70+ secondary schools
  - 120+ Businesses

‘Excellent opportunity to educate young people on issues of climate change and opportunities within industry’

Western Power Distribution

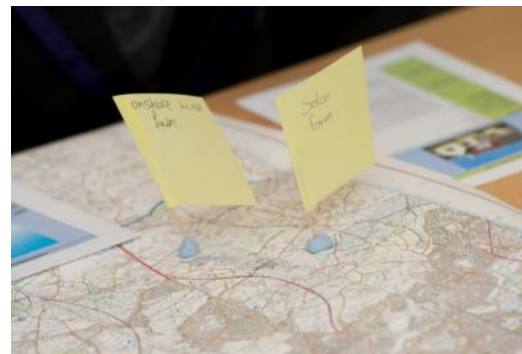

YOUR  
GREEN  
FUTURE

# Funding.....not easy

Free to schools so....

Fundraising needed from:  
Business sponsorship  
In kind donation – venues  
Local councils  
Charities & trusts

# What is Young Energy People?

Energy efficiency training  
for school children

Training pupils to carry out  
energy surveys at their school

School management acts on  
their recommendations

# What do they do?

Increase awareness among students and teachers of:

- Energy efficiency and renewable energy sources
- Climate change issues
- Good practice in energy management

<https://vimeo.com/200023050>

# How do they do it?

Conduct energy audit including behaviour change, e.g.

- Are computers and lights left on?
- Is the heating on but windows open?
- Water taps left running?

Record energy data on an *Energy Diary* (copies available)

Microsoft Excel  
17-2003 Workshee
