

DEAR READER, welcome to the third BRIDGES newsletter

In this issue we would like to present you **some short stories**, in which regions share experiences from almost three -year cooperation within BRIDGES project. The intensive interregional exchange between BRIDGES partners led to the external peer review of action plans, which took place in September in Helsinki. You will learn how our action plans reflect the needs for RIS3 delivery improvement. You will find out what has BRIDGES brought to European regions and what is the biggest value of the project.

Get to know what we have achieved so far!
Enjoy reading!

1. The BRIDGES story of Kainuu Region

Kainnun Etu and Regional Council of Kainuu - insights from the peer review and experiences from interregional cooperation
