The iORG lasted for 45 minutes in total.

2. Brief info on the event

The event followed the proposed agenda.

The in detail presentation of the online portal was dedicated to all parts of the portal, including the background editing, as the MRA will be responsible for updating the portal. The portal itself offers two guides for the SMEs to support the internationalization.

1st is the self-evaluation guide, to help an SME asses their level of readiness. 2nd is the overview of the supporting environment, with direct contacts to the people responsible to provide information and support.

Additionally the news segment was presented and synergy was found between other news published by MRA that is relevant to the entrepreneurs.

A demonstration was also made of the editing the portal.

3. Recommendations and next steps

MRA must constantly follow and upgrade the portal to keep the information accurate and if possible it could be expended.
