Innovative geospatial solutions for opencast mining operations
Monitor progress
Personnel safety
Environmental respect
Monitor progress
Personnel safety
Environmental respect
Aerial photography
Cost effective
Accurate
Fast
Recurring updates
100x better resolution than satellite
Photogrammetry
3D digital twin
Interactive
Measurable
Cloud Computing

“infinite” computing and storage capacity
Visualization & analysis

Web-based solutions
Digital mining

Near real-time monitoring
Lifecycle trazability
Identify risks
Better decisions
Save time & money
Virtually monitor your assets from anywhere

Thanks!
