

### III REGIONAL STAKEHOLDER GROUP MEETING

Partner/Region	Date	Participants	Main outputs:
The Malopolska Region	24.06.2019	Regional stakeholders represents ITHACA ecosystem: public authorities (representative of City of Tarnow, representatives of Regional Centre of Social Policy in Kraków, the Marshal Office of the Malopolska Region – incl. the Managing Authority of the ROP 2014-2020), Universities (AGH University of Science and Technology, Malopolska Centre of Biotechnology Jagiellonian University), Business (Klaster LifeScience Kraków) and Representatives of Healthcare providers implementing the projects financed within the Regional Operational Programme (Mościce Medical Centre).	<p>The 3<sup>rd</sup> Regional Stakeholder Group Meeting was focused on summing up the first stage of exchange of experience process (i.e. after 9 EEPes organised in all ITHACA partner regions). The second part of the meeting concerned the preparation of the regional Action Plan.</p> <p>During this event the coordinator of the ITHACA project presented selected GPs identified during all 9 EEPes and invited stakeholders to debate on the potential of those GPs for transfer or inspiration for improving existing policies, programmes or initiatives. The GPs selected (3 per region):</p> <ul style="list-style-type: none"> <li>• Telehealth centre in the Liverpool Innovation Park (UK)</li> <li>• Hospital 2.0 project (UK)</li> <li>• Person centred design activity (UK)</li> <li>• Psychiatric Hospital in Slagelse (DK)</li> <li>• Care Centre in Slagelse – COPD Rehabilitation (DK)</li> <li>• Living Lab SOSU (DK)</li> <li>• Brainport Smart District (NL)</li> <li>• LOKAAL+ (NL)</li> <li>• Robot Love Embassy (NL)</li> <li>• Research Institute in the Cruces Hospital (ES)</li> <li>• “Technological breakfast” in the Cruces Hospital (ES)</li> <li>• Integration of services within Osakidetza (ES)</li> <li>• Quartier 2020 Strategy (DE)</li> <li>• LebensPhasenHaus (DE)</li> <li>• Wizemann Space (DE)</li> <li>• University Medical Centre Ljubljana (SI)</li> <li>• University Rehabilitation Institute (URI) SOČA (SI)</li> </ul>

			<ul style="list-style-type: none"> <li>• Living Lab IRIS (SI)</li> <li>• AIMER – bi-generation houses (FR)</li> <li>• Pôle Aidant (FR)</li> <li>• Bizibots by Bizi&amp;Co (FR)</li> <li>• Sum-up of the EEPE in the Malopolska Region (PL)</li> <li>• Citta Sane initiative (IT)</li> <li>• AlbSib programme (IT)</li> <li>• “Greeting your neighbour” initiative (IT)</li> </ul> <p>Invitation sent to the end-beneficiaries realising projects within the Regional Operational Programme was the added value of the meeting. Their point of view is crucial in the process of preparing the Regional Action Plan.</p> <p>Stakeholders learnt about the most interesting good practices observed during all nine EEPEs. They could add comments to the presentation, but mainly it was a positive feedback that some of GPs could be an inspiration for the future actions.</p> <p>The discussion afterwards focused on possible projects that could be a part of the regional Action Plan that will be implemented during the 2<sup>nd</sup> phase of the ITHACA project.</p> <p>Main challenges resulted from the discussion:</p> <ul style="list-style-type: none"> <li>• Importance of keeping elder people active on the labour market;</li> <li>• Lack of medical carers;</li> <li>• NGOs involvement in organisation care services;</li> <li>• Organisation of environment for Living Labs;</li> <li>• Building / developing people’s awareness about AHA and living labs.</li> </ul> <p>Considering the challenges above the stakeholders agreed that the Malopolska Region should learn more about good practices concerning organisation of living labs (Living Lab SOSU in Zealand, Autonom’lab in Limoges, Pôle Aidant in Limoges, Living Lab IRIS in Ljubljana) and those about increasing awareness of self-management of health and education in providing care services (Lokaal+, Slowcare, Active citizen, Active patient support).</p>
