DEVELOPING A NEW MODEL OF
SUSTAINABLE DEVELOPMENT PLAN (PDS)

ANDALUSIAN IMPACT ACTION PLAN

pds.cagpds@juntadeandalucia.es

Regional Government of Andalucía

Brussels, October 7th, 2019

ACTION 1

RESOLUTION OF CONFLICTS BETWEEN THE MANAGEMENT OF THE PROTECTED SPACES AND LOCAL COMMUNITIES

- **Subaction 1.1 Advice for the elaboration of the conflict resolution model for protected natural spaces. Completed.**
 - ✓ Good practice from EUCC Baltic Office the Lithuanian Partner.
 - ✓ Creation of a **working group** (MALFSD and EWA).
- **Subaction 1.2 Development and creation of the appropriate organism composed of a group of experts in this type of conflicts.**
 - ✓ The constitution of the conflict resolution body, has been developed in a pilot way with the Creation of a **Commission**. The official procedure to create the regulatory decree for the constitution of the conflict resolution body has already started.

ACTION 1

RESOLUTION OF CONFLICTS BETWEEN THE MANAGEMENT OF THE PROTECTED SPACES AND LOCAL COMMUNITIES

- ✓ The learnt methodology including the new deliberation tool has started to carry out in PAs:
 - **3 forums** have been held in March 2019 by different **topics** and social sectors with around 30 people (Tourism, Marine resources, Scientific Research and Innovation).
 - Detecting a total of **15 conflicts** in the forums that the Commission have sent to the competent body (Governing board of the NP, competent authority or including the solution directly in the SDP). The commission is also monitoring the process for the resolution of the detected conflicts.

ACTION 2

EVALUATION OF CARRYING CAPACITY FOR VISITORS MANAGEMENT

- **Subaction 2.1** Metodological review and Selection the spaces for the study (SDP).
 - ✓ This case has been presented by partner number 4, National Institute for Research and Development in Tourism of Romania
 - ✓ Carried out.

- **Subaction 2.2** Selection of variables needed for the study and a set of specific indicators correlated to the carrying capacity.
 - ✓ Carried out

ACTION 2

EVALUATION OF CARRYING CAPACITY FOR VISITORS MANAGEMENT

- **Subaction 2.3** Test the selected methodology for the diagnosis and monitoring the tourism carrying capacity in protected natural spaces.
 - ✓ The methodology has been tested in Sierra de las Nieves Natural Park and in Sierras de Cazorla Segura y las Villas NP.
 - ✓ **A census of visitors** and vehicles and a **survey** about the visit experience were performed in both PAs.

- **Subaction 2.4** Preliminary diagnosis of load capacity in protected natural spaces.
 - ✓ It is currently being developed

ACTION 3

INTEGRATION OF THE LOCAL COMMUNITY FOR ECONOMIC DEVELOPMENT AND CONSERVATION IN A SPACE

- **Subaction 3.1 Formalization of communication and participation processes.**
 - ✓ This model of good practice starting from an idea provided by Lithuanian Partner, EUCC Baltic Office of the Coastal and Maritime.
 - ✓ Carried out

ACTION 3

INTEGRATION OF THE LOCAL COMMUNITY FOR ECONOMIC DEVELOPMENT AND CONSERVATION IN A SPACE

- **Subaction 3.2 Use of new tools, especially with information technologies (Participation in social networks, online meetings, etc).**
 - ✓ The number of contacts made with the local community thanks to the new communication tools established have been 73:
 - ✓ 7 Working Groups have been created with a total of 102 participants
 - ✓ 26 Social participation forums have been held with a total of 540 Citizens (527 Citizens of them gave their emails to keep involved until the end of the process)
 - ✓ 40 interviews were conducted
 - ✓ 719 proposals or suggestions were received (578 came from forums and 141 came from the interviews).
- ✓ The protocol is currently pending on the final approval by the Ministry of Agriculture, Livestock, Fisheries and Sustainable Development.
