

**MOMAr** will improve the policies and programmes addressing the heritage in rural territories, taking into account the peculiarities and cultural identities of the places where the ecosystems, the history and the culture determine a mode of action. The inhabitants -who maintain the territory alive- will be a central part of the strategies and new projects designed about the heritage.

# “ INTERREG EUROPE

is a European Union programme aimed at local and regional governments of all state members in order to help them develop and deliver better policies.

It aims to create an environment and opportunities for sharing solutions in order to ensure that the local and regional government policies lead to an integrated and sustainable impact for people and territories.
