BOOSTING ADVANCED MANUFACTURING IN EUROPE THROUGH INTERREGIONAL COOPERATION

Leire Bilbao. CEO of Basque Innovation Agency, Innobasque
The Basque government has made significant effort to understand its economy and the factors of competitiveness. However, it has not sufficiently built up data for **programme, policy and strategy evaluations**.

This type of evaluation is a common weakness among OECD regions and member countries. However, given the large share of public funding (direct and indirect) of firm R&D, **such evaluations are particularly important in the Basque Country**.

Source: OECD - Evaluation of the Basque Innovation System (2011)
• Designing the evaluation strategy.
• Drafting the first reports:
  - Monitoring of the Plan.
  - Comparative analysis with other regions.

• Implementation of the Monitoring and Evaluation System of the R&D programmes of the Department of Economic Development and Infrastructures (SIME), based on impact assessment.
• Training workshop.

• Accreditation and financing of scientific-technological agents based on a Dashboard.
RIS3 priorities for the Basque Country

BUSINESS SECTORS CLUSTERS

- Leisure and culture
- Planning and Urban regeneration
- Ecosystems
- Biosciences
- Food
- Human Health
- Energy

SCIENTIFIC AND TECHNOLOGICAL CAPABILITIES

IN ENABLING TECHNOLOGIES

AREAS OF OPPORTUNITY

- Advanced Manufacturing
- Capital goods
