Number from Civil Society	Not present	
Any other comments or information about participants		
MAIN TOPICS DISCUSSED		
Please List them briefly		
<p>The meeting took place in Start-up City at the Hanze University, it started at 11.00 o'clock and lasted till 12.15 o'clock. The atmosphere was pleasant. The following points have been discussed.</p> <p>Short welcome by Adri Mertens to the participants.</p> <p><u>Announcements</u></p> <ul style="list-style-type: none"> • Maud Diemer informed the stakeholders that her colleague Yke Wijnker left CMO Stamm for a new job at network ZON. • Maud Diemer announced that the European mission for CMO Stamm will expire on the 1st of January 2021. Ongoing projects will still be completed. We need to consider how this will be solved for E-Cool and what is important to us in this context. CMO Stamm will no longer be involved in new Interreg projects. • Alexander Grit reports that he is involved in the application for an O2 lab. This project fits in well with E-Cool's focus on the use of hubs. • Albert Haan informed the attendees that the topic of young entrepreneurship will also remain important at the new RIS. There will also be a subsidy fund available for the innovation system in the North. Next year there will also be accelerated EFRO subsidy money available for the consequences of corona in the field of innovation. Another important fund he mentioned is the JTF. This focuses on the negative consequences of the energy transition. 		

Minutes 4th stakeholdersmeeting.

Review of the minutes from last time. The minutes were accepted by the members.

Progress project

Unfortunately, because of Corona, our meeting, where we would ask students for their opinion on best practices, did not take place. This was difficult to convert to online. Alexander Grit reports that there are 15 students at the Health Hub in Roden now. We can try to ask these students to give their opinion about the best practices on November 20th, when they organize the Entrepreneur's Day. Anna Peterzon coordinates this day. Adri will contact her. We will also invite the stakeholders on this day.

Action plan

The aim of the action plan is to spread 1 or 2 best practices from other regions and implement them in your own region. You can also change the best practices of other regions. It is ultimately about improving the policies. Albert Haan advises you not to make it too voluminous as there is not a lot of financing available for that part of the project. Possibly you can look at funding from other sources.

After some discussion, Brno's best practice that suits us well is chosen. They also work with Fablabs and so do we in the North of the Netherlands. The problem is the occupancy rate of the Fablabs, how can you fill them in more meaningfully, for example, so that the occupancy rate becomes higher. There are a number of Fablabs in the North, like the Health Hub, the launchcafe, etc. Adri will make an outline for the action plan.

Other points

- Maud Diemer asks whether not being able to travel also has consequences for the project. According to Albert Haan there are many requests for prolongation of the projects in order to make this possible. At the moment all kinds of digital moments are being planned.
- New date for next stakeholdersmeeting will be November 20th in Roden, Groningen, The Netherlands.

MAIN ACTION POINTS

Please List them briefly

Adri will make an appointment with Anna Peterzon about the session with studentinvolvement.

Adri will make a start with the action plan.
