

relevance to my learning

extent to which it can usefully be replicated in my region

Ready to use clauses as a tool to support already overburdened PAs. Is it a good starting point to set a more structured dialogue with PAs?

Slovenia&Italy, long history of mandatory minimum env. criteria. How much these helps/foster LC approaches?

very interesting tool la clause verte, in particular to spread good ideas among municipalities; nice it is incremental

Economies of scale and knowledge sharing. Networks are stronger than single procurers!

LCC is quite difficult to apply, but possible and LCA easy to apply indirectly

Who needs training on LCC for PP? Civil servants, SMEs, and? who is the best relay to multiply messages locally?

Great for the workshops for procurers, helpdesks and recommendations

Need to involve independent experts to initiate LCC processes, then research into the market
