

40Ready Fifth Virtual Meeting and Interregional Pilot Action Launch

23rd June 2021

11:30 – 13:00 a.m. CET

<https://global.gotomeeting.com/join/332891701>

FINAL AGENDA

Description:

In Semester 4, LP – ASEV submitted to the Programme Officers a request for Pilot Action, complemented with a request of 6 months extension of the project duration. In beginning of June the requests were both officially approved. The partnership is therefore convened to update 40Ready activities in light of the approval. This meeting also represents the Interregional Pilot Action Launch.

In parallel, approaching a new phase of the Covid-19 pandemic, where travelling could be easier, the opportunity to plan next project meetings in person, recovering the cancelled ones, will be discussed to support Action Plan development.

Thus the Virtual Meeting is focused on:

- Examining the interaction of the Tuscan Pilot Action with the interregional activities and updating the project activities schedule, in particular in relation to AP development;
- evaluating travelling availabilities and scheduling meetings in future semesters;
- taking the stock of financial and communication state of the project.

Schedule:

1130 – 1200 Interregional Pilot Action Launch and 6 months extension

Lorenzo Sabatini (ASEV – LP) welcomes the partnership and communicates the official approval of the Tuscan Pilot, together with the 6 months extension of the project duration. He presents the pilot action activities.

Jessica Huntingford (Resolvo) introduces the integration between the Pilot and interregional 40Ready activities.

1200 – 1230 Future meetings in person

Partners hold a roundtable to inform the partnership concerning their travelling availability in future months, taking into consideration national and international legal dispositions and personal attitude. The goal is to attend a first meeting in person in October in Bucharest, and possibly to recover 2 meetings, cancelled due to the pandemic by June 2022.

1230 – 1300 Finance and Communication

Pietro Collini (Resolvo) briefly presents the project financial performance up to Progress Report 3, from previous semester, and provides overall guidelines for Semester 4 reporting.

Enrico Valori (ASEV – LP) discusses communication requirements.

1300 End of meeting
