

# WORKING GROUP ON “GESTIONE E TRATTAMENTO DEI RIFIUTI”

Lucia Rigamonti<sup>1</sup>, Andrea Fedele<sup>2</sup>

1 Dipartimento di Ingegneria Civile e Ambientale, Politecnico di Milano

2 CESQA Centro Studi Qualità e Ambiente, Università di Padova

# SUB-GROUP

A sub-group has been set up following the WG meeting on 7 May 2021 with the aim of mapping of how much and how the LCT (Life Cycle Thinking) methodologies are used in Italy by policy-makers in the field of waste management.

Surname	Name	Organization
<b>Carollo</b>	<b>Federica</b>	Politecnico di Milano
<b>Cecere</b>	<b>Giuseppe</b>	Politecnico di Milano
Cappucci	Grazia Maria	Università degli Studi di Modena e Reggio Emilia
Bottausci	Sara	Università di Bologna
Camana	Daniela	Università di Padova
Degli Esposti	Anna	Università di Bologna
Demichelis	Francesca	Politecnico di Torino
<b>Magrini</b>	<b>Chiara</b>	Università di Bologna
Mazzi	Anna	Università di Padova
Miranda	Giovanni	Private
Sciarrone	Michela	Università di Padova

# GOALS

The work focuses on analysing regional waste management plans (**PRGR**) to identify the presence of **E-LCA**, **Social LCA** and **LCC** studies.

The methodologies, when applied, will be studied in order to have a detailed idea of how the study was carried out.

The objective is to analyse all **Italian regions** and then define **good practices** for the use of **LCT methodologies** in planning.

# FIRST CHECK

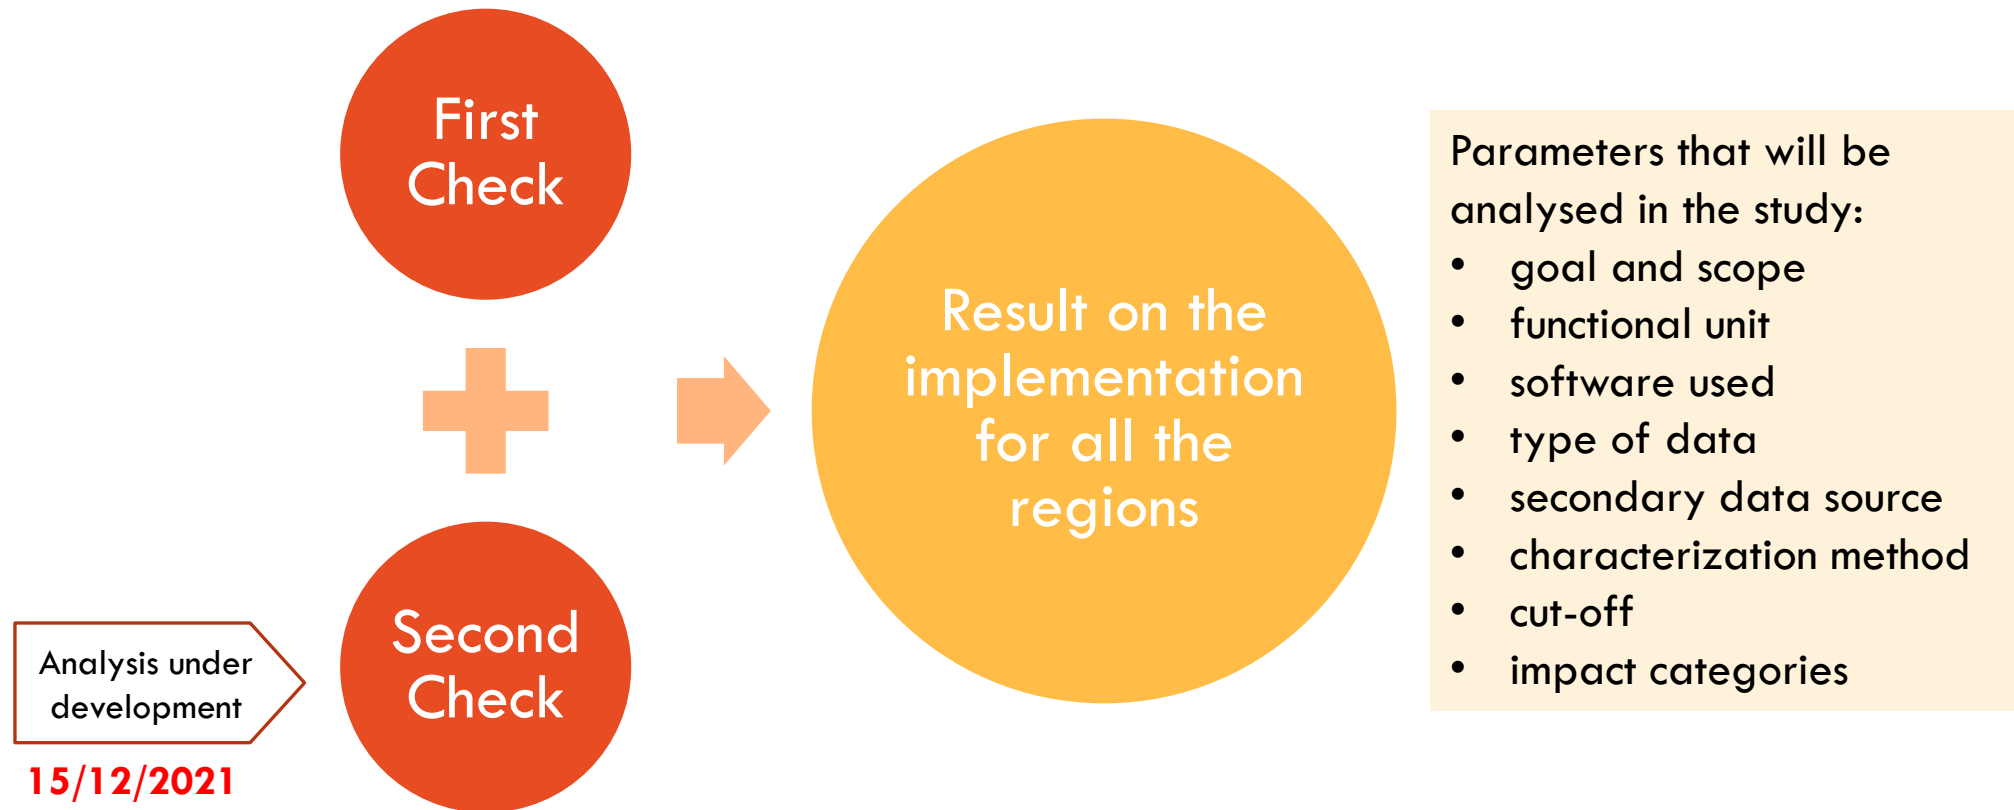

- LOMBARDIA (LCA)
- FRIULI VENEZIA GIULIA (LCA)
- UMBRIA (LCA-LCC)
- PIEMONTE (LCA)
- EMILIA-ROMAGNA (LCA)
- BASILICATA (LCA)
- PUGLIA (LCA)

- |                                                                                                                                                                                                                                             |                                                                                                                                                                                                       |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
