Developing new learning experiences in the context of Covid-19 energy usage impact!

CLEAN project partners continue working to face the new challenges that Covid-19 brought in the field of energy efficiency to the partner regions.

Welcome to the sixth newsletter of CLEAN, an interregional project to increase energy efficiency in housing and public infrastructure by 4% through technology, open innovation and improved low-carbon policy instruments. The project is supported by [Interreg Europe](#) funding programme.

CLEAN project 1st Additional Activities seminar

On January 25, CLEAN partners celebrated the 1st Interregional Seminar focused on facilitating the exchange of experience and knowledge transfer on measures addressing the energy efficiency in the context of Covid-19.
