UNIÃO EUROPEIA
Fundo Europeu de
Desenvolvimento Regional

Foreword

This publication by the Norte Regional Coordination and Development Commission (CCDR-N) aims at providing concise and clear information about the participation of the Norte Region of Portugal in European Territorial Cooperation (ETC) programmes from the European Union (EU).

ETC is one of the objectives of EU's Cohesion Policy. It is one of the most relevant EU instruments to support the cooperation between partners from different Member States and third countries. ETC comprises 107 programmes with different territorial configurations. Each programme supports projects in which agents of different countries tackle common challenges and find shared solutions – whether in the field of health, research, education, transportation or sustainable energy. For the 2014–2020 period, ETC has a budget of about 10.2 billion euros (which is equivalent to approximately 2.9% of the global budget of the Cohesion Policy).

Norte of Portugal is covered by seven ETC programmes: the cross-border cooperation programme Interreg V-A Spain-Portugal (POCTEP), the transnational cooperation programmes SUDOE and Atlantic Area, and the interregional cooperation programmes Interreg Europe, ESPON, URBACT III and INTERACT.

This publication focuses only in the interregional cooperation programme Interreg Europe. This programme offers opportunities for regional and local public authorities across Europe to share ideas and experience on public policy in practice, therefore improving strategies for their citizens and communities. In particular, the programme establishes a framework for different partners to work together, within the context of each project, in improving the implementation of public policies, with a particular focus in programmes that are part of the Cohesion Policy. In order to do so, each partner develops an action plan to improve a policy instrument existent in its region.

For the 2014–2020 period, Interreg Europe has a budget of 359 million euros (which is equivalent to approximately 3.5% of the global budget of ETC).

This publication is an integral part of the NORTE UE collection, which comprises several publications developed at the OADRN Unit of CCDR-N. These publications aim at deepening the existing knowledge about the dynamics of the implementation of the European Union funds in the Norte Region of Portugal.

Publication details

Title: Interregional cooperation: Dynamics of the Interreg Europe programme in Norte (Information up to the 3rd call)

Collection: NORTE UE Dynamics of European funds in Norte Region of Portugal - Territorial Cooperation Programmes

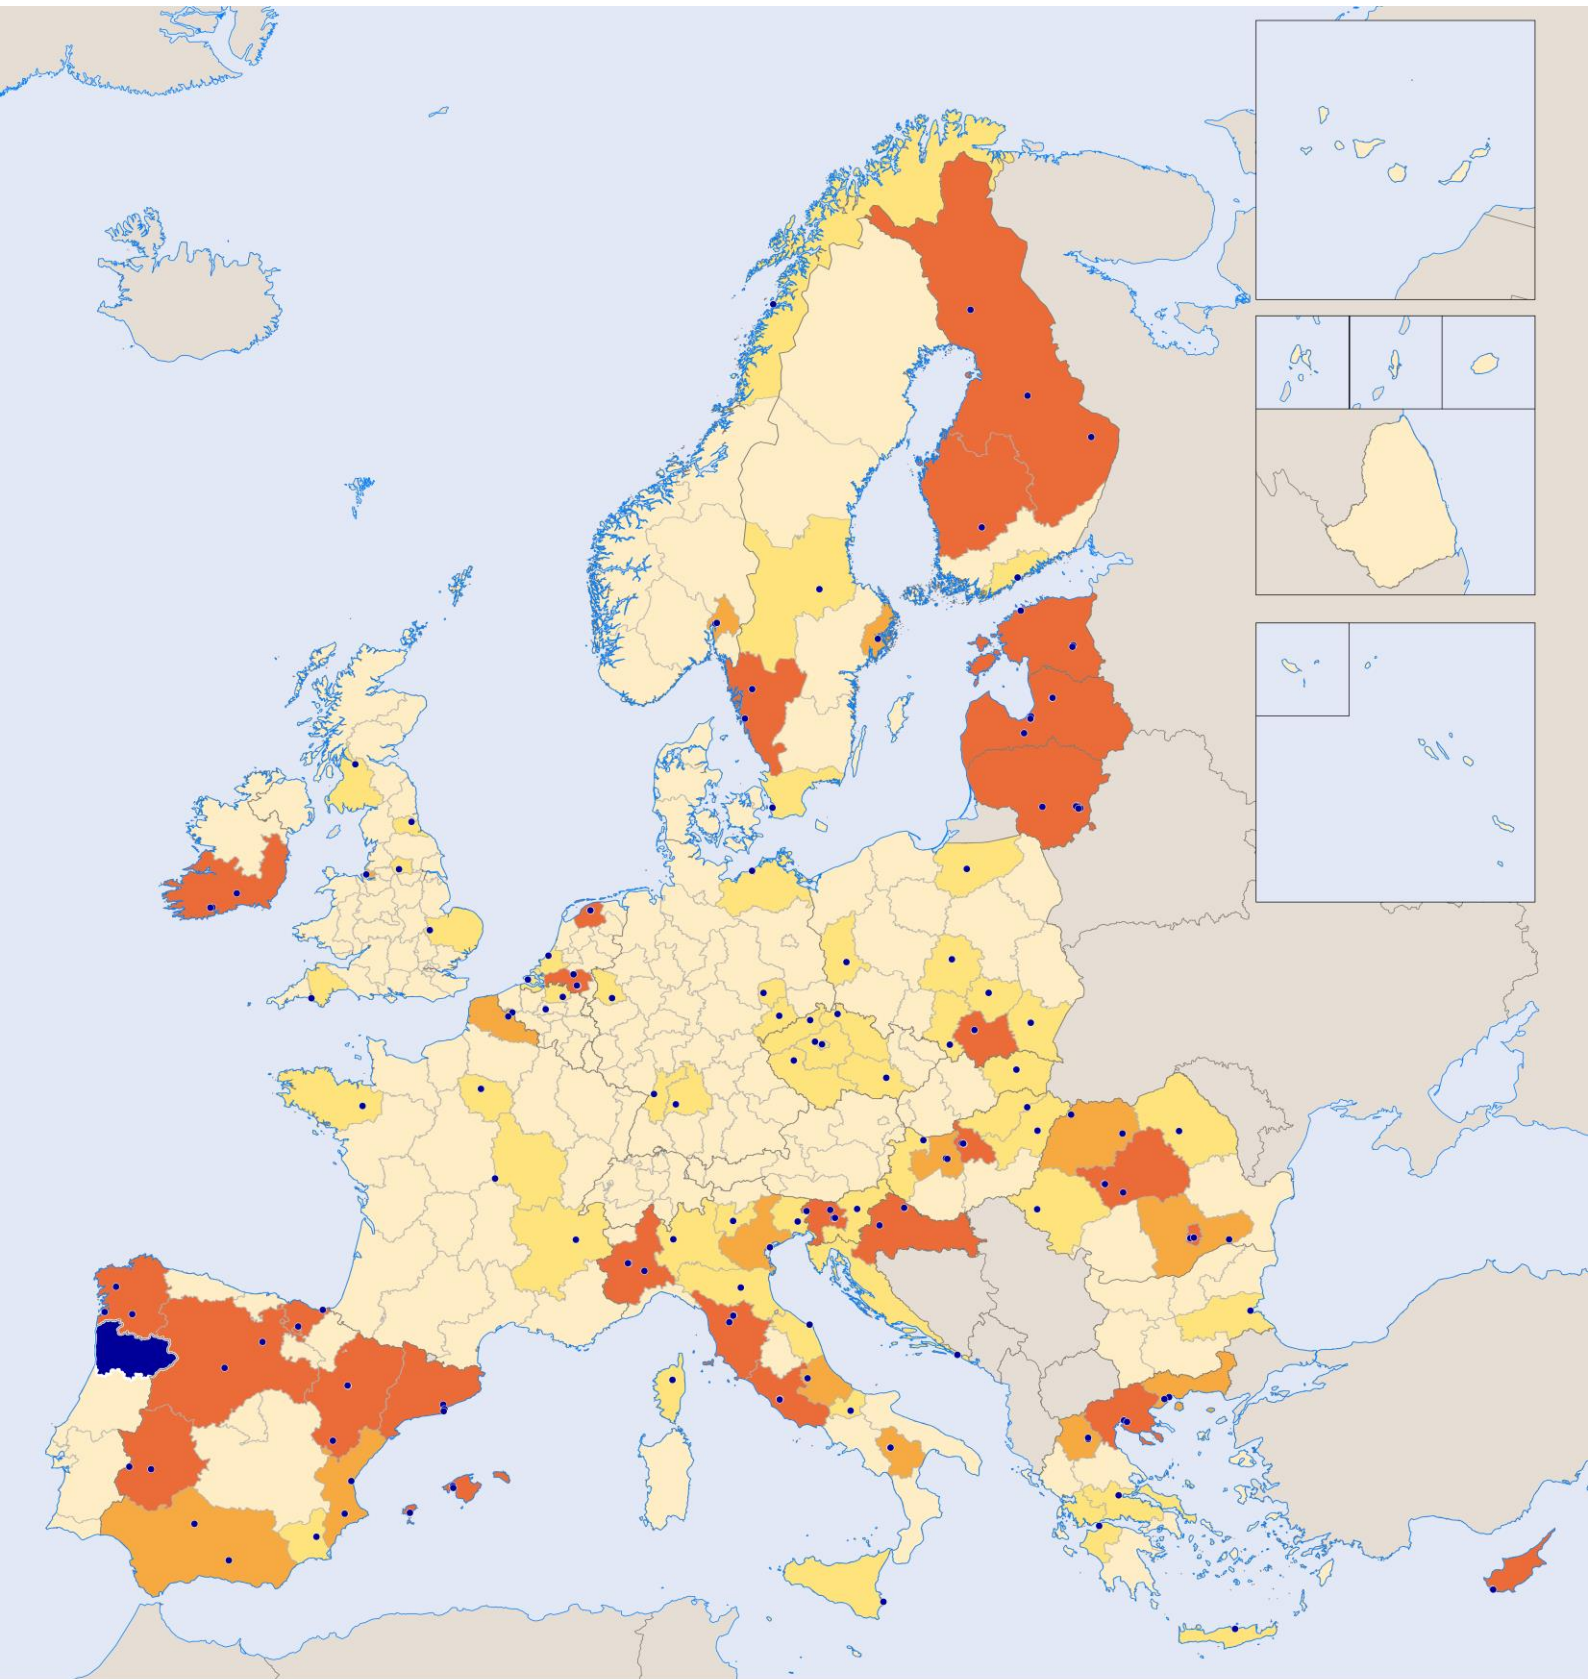

Issue: no 2 | December 2018

Editing: Norte Regional Coordination and Development Commission (CCDR-N)

Coordination and Technical Team: OADRN Unit

Contact: oadr@ccdr-n.pt

Who do the Norte Region organisations cooperate with in Interreg Europe projects?

Partners that cooperate with organisations based in Norte Region

- Location of partner headquarters

Partners by NUTS II (no)

- 0
- 1
- 2
- 3 or more

Territorial units

- NUTSII Norte
- Non-eligible countries under Interreg Europe

CCDRN
COMISSÃO DE COOPERAÇÃO E DESENVOLVIMENTO REGIONAL DO NORTE

0 250 km

28
approved
projects involve
organisations
based in Norte
Region

Equivalent to:

53% of projects involving Portuguese partners
15% of all approved projects in Europe

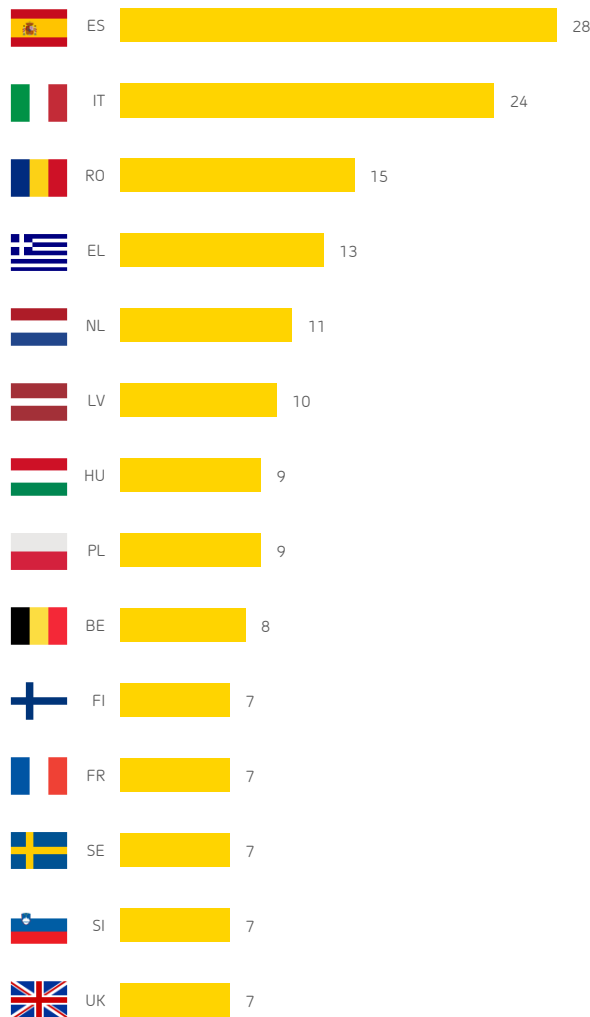

199
European
partners interact
with entities that
are based in the
Norte Region⁽²⁾

Distributed by:

24 of 30 eligible European countries
97 of 286 NUTS II of those countries

Countries with more partners cooperating with Norte Region organisations (no of partners)⁽¹⁾

⁽¹⁾ This group of countries concentrates approximately 81% of the European partners with whom entities from the Norte Region cooperate.

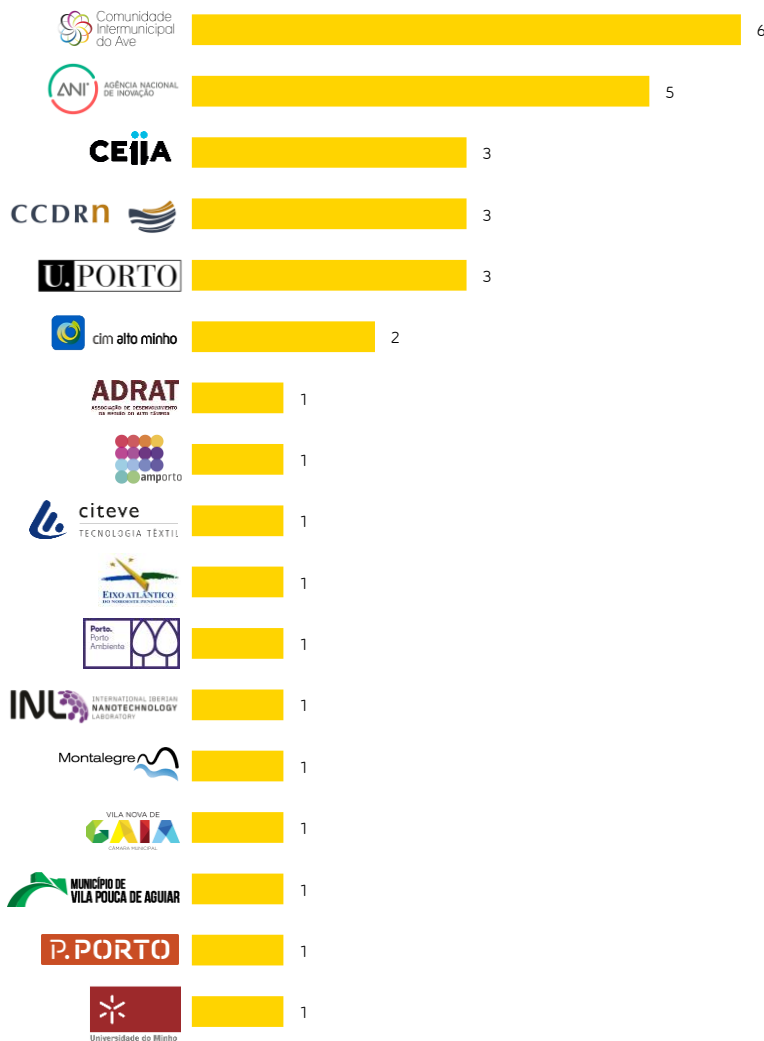

⁽²⁾ Some of these partners are counted as many times as the number of projects in which they take part of.

⁽³⁾ Out of the 53 approved projects that involve Portuguese entities, only five have a national lead partner. From these, three are based in Norte region – the Peninsular Northwest Atlantic Axis in EPICAH project, the Polytechnic Institute of Porto in RegionArts project, and the Portuguese National Innovation Agency in Innova-FI project.

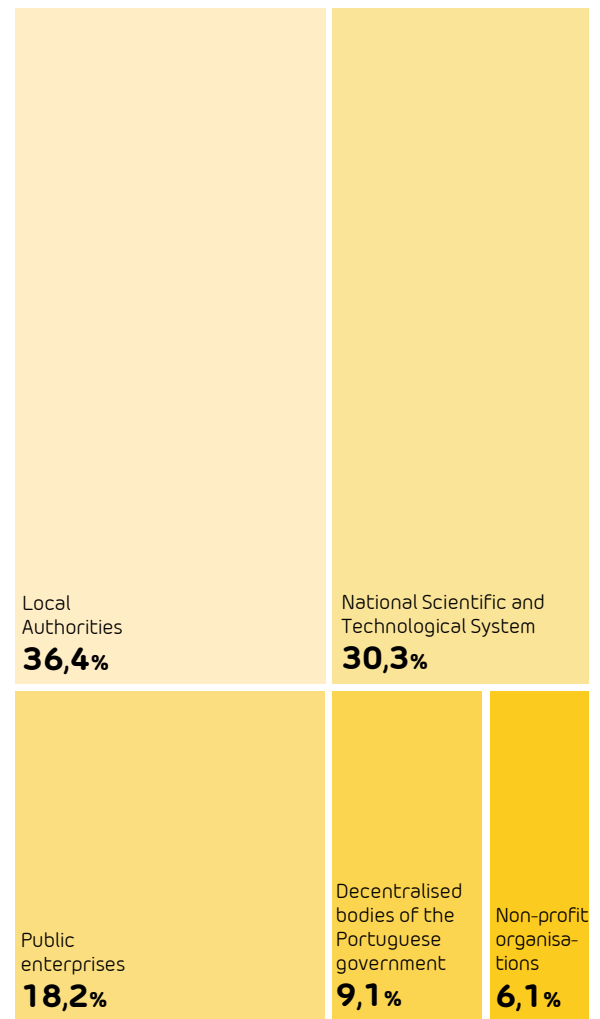

- The Interreg Europe programme supports projects of interregional cooperation between regional and local entities located in EU Member States, Norway and Switzerland. These projects aim to develop and promote better regional development policies.
- 184 projects were approved in Europe in three calls launched so far under the Interreg Europe programme, which involve more than one thousand partners from 30 different countries. The support given to these projects represents a commitment rate of about 68% of the programme's total budget.
- 28 of the 184 approved projects involve the participation of entities based in the Norte Region. The implementation of these projects required the establishment of partnerships with more than 199 entities from different European regions. More than 1/3 of these entities are based in Spain, Italy and Romania.
- At the Portuguese level, the Norte Region stands out for its involvement in Interreg Europe projects when compared to the remaining Portuguese regions. Such dynamism is also reflected at the project leadership level.
- 54 of the 184 projects were approved in Europe in the third call for proposals. Nine of these involve entities based in Norte Region.

Which organisations from Norte Region participate in Interreg Europe projects?

Partners based in Norte Region (no of projects)⁽⁴⁾

Type of entities from the Norte Region involved in Interreg Europe projects (% of projects)⁽⁴⁾

17
entities based in the Norte Region are involved in the 28 approved projects

Of which:

36% are local authorities
30% are part of the National Scientific & Technological System

⁽⁴⁾ Some of these projects are common to different entities based in the Norte Region. For more information, please refer to the attachment.

⁽⁵⁾ CIM Ave replaced ADRAVE – Vale do Ave’s Regional Development Agency – in projects in which this entity was involved until the second call: UpGradeSME and ecoRIS3. The same happened in the INTHERWASTE project, Porto Municipality was replaced by Municipal Enterprise for Environment (EMAP).

- The kind of entities eligible for the Interreg Europe programme includes local, regional and national authorities, bodies governed by public law and private non-profit organisations.
- Approximately 2/3 of the Norte Region’s entities involved in the 28 approved projects are either local authorities or are part of the National Scientific and Technological System (NSTS).
- From the second to the third call for proposals, the entities from NSTS have shown a highest increase in their involvement in Interreg Europe projects when compared to the remaining kind of entities that are based in Norte.
- Two of the 17 entities that are based in Norte stand out for their involvement in a greater number of projects - the Ave Intermunicipal Community (CIM Ave) and the Portuguese National Innovation Agency (ANI).

What are the main Interreg Europe topics addressed by the projects in the Norte Region?

Approved projects (no) in the Norte Region by priority axes of Interreg Europe

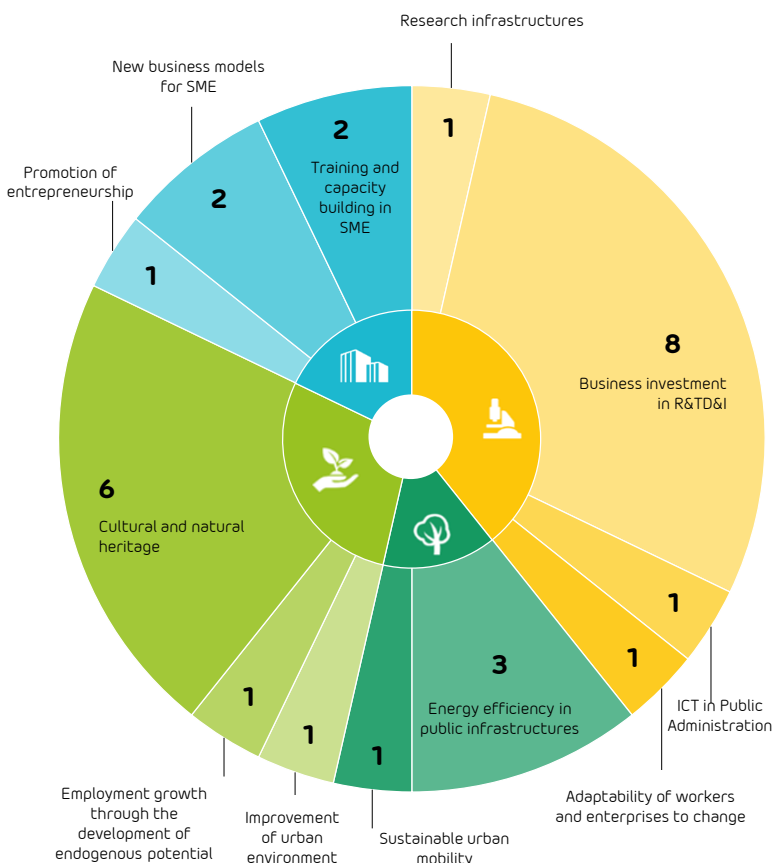

39% of the Interreg Europe's projects in the Norte Region fall into the priority axis I&I

More than 61% of the projects involving entities from the Norte Region fall into three intervention areas of the Cohesion Policy programmes:

- 29%** Business investment in R&TD&I
- 21%** Natural and cultural heritage
- 11%** Energy efficiency in public infrastructures

Projects approved (no) in the Norte Region by intervention area of the Cohesion Policy programmes

- The Interreg Europe programme is organised around four priority axes: Research and innovation (R&I); Small and medium-sized enterprises (SME) competitiveness; Low-carbon economy; and Environment and resources efficiency.
- More than 39% of the 28 approved projects in which Norte Region's entities are involved fall into the priority axis R&I.
- Each Interreg Europe project encompasses the development of one action plan per partner region, focused on the improvement of specific policy instruments of the Cohesion Policy.
- In the Norte Region, 18 of the 28 approved projects focus on the Norte 2020 Regional Operational Programme. On the other hand, 14 of 28 approved projects focus in areas of the Cohesion Policy that are associated with the promotion of business development in Norte Region.

Methodological note

Information sources

The main source of information of this publication is the public list of approved projects of the Interreg Europe programme 2014-2020. This information integrates the results up to the third call for proposals under the programme (available at <https://interregeurope.eu>).

Methodological approach

Information mapping was based on the identification of the NUTS II where the Interreg Europe's project beneficiaries are located.

Concepts

For a better understanding of the concepts found in this document, please refer to the concept glossary of the Interreg Europe programme, available at <https://www.interregeurope.eu/help/glossary/>.
