Key aspects of the practice

Main advantages of 3SR

Key resources for 3SR

"HANDS FOR HOMES" NETWORK CHARTER

Presamble:
 The charter formulates an international network of stakeholders. Its purpose is to improve the living conditions of persons who suffer from poor housing, keeping in mind a great awareness of heritage, architectural and ecological qualities of existing buildings.
 We shall provide the opportunity for occupants to undertake rehabilitation while respecting the quality of works and the materials' financial resources. The network proposes solutions based on workforce costs reduction thanks to the occupants' and volunteers' involvement, mutual help and solidarity in the form of shared and accompanied self-rehabilitation (3SR).

Being aware that

- many inhabitants suffer from poor housing conditions and don't have financial means for a way out.
- energy poverty combat and hyperthermal improvement of buildings are particular critical issues we thus contribute to the fight against climate change.
- solidarity and mutual help can be a lever to address precariousness in housing, notably through workforce costs fall.
- venerable buildings' accreditation is key to the conservation of cultural and architectural heritage, landscape and territorial identity.
- venerable buildings' accreditation needs expertise, skills and technical competences.

And favourable to

- the use of less or unprocessed, natural and local materials and appropriate techniques that contribute to provide relevant responses to low-income inhabitants. We search for adapted and efficient solutions, while favouring local sector and economic development of the territories.
- the development of responsible production and consumption modes. We thus enable biodiversity and resources conserved on by using techniques and materials as mentioned above and also by recycling.
- the development of social cohesion and solidarity between territories and generations. We target the fulfilment of all by the creation of solidarity. In the prospect of social and professional inclusion we favour social, cultural and general well-being through participatory eco-building sites.

Signatories commit themselves to:

- Mainly accompany persons in poor housing conditions.
- Promote mutual help and solidarity through Shared and Accompanied Self-Rehabilitation (3SR).
- Favour the use and development of low impact, natural and local materials, with appropriate know-how, compatible with venerable buildings and beneficiaries' resources.
- Promote Shared and Accompanied Self-Rehabilitation (3SR) with public and private institutions.

Charter (2 pages) + leaflet (8 pages) + flyers + videos + facebook + website...

How to guide (55 pages) + 6 appendices + 7 examples of tools...

TABLE OF CONTENTS

INTRODUCTION	
What is Shared and Supported Self-Renovation (3SR).....	6
Why Is It Important to Improve Housing.....	6
GOOD TO KNOW BEFORE STARTING 3SR	
I. General and Strategic Approach.....	7
II. Three Preliminary Steps of 3SR.....	11
III. Identify Beneficiaries of the 3SR System.....	13
IV. Identify Professionals to Operate the 3SR System.....	17
V. Legal Concerns.....	21
VI. Funding the 3SR System.....	26
HOW TO IMPLEMENT A SUCCESSFUL 3SR	
I. Supporting and Involving Beneficiaries.....	30
II. Help Make Good Renovation Choices.....	34
III. Setting Up a Collaborative Building Site.....	37
IV. Going Further.....	46

HANDS FOR HOMES COMPETENCY FRAMEWORK

Gathering knowledge, skills and attitude to carry out a Shared and Supported Self-Renovation project

Co-funded by the Erasmus+ Programme of the European Union

HANDS FOR HOMES

This project has been funded with the support of the European Union. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Competency framework (26 pages) + 2x3 days + 1x5 days trainings...

Partners involved

3SR.

Social and Patrimonial.

An **initiative** in France

A training cooperation **project** of adaptations in Europe (Erasmus +)

The creation of a **concept**

An international **network** to disseminate (i.e. via Interreg Europe CLEAN good practices)

An innovation **project** to widen the practice thanks to energy communities (Horizon 2020)

Evidence of success and impact of 3SR

Local

- Solidarity chain of 136 members [via Enerterre](#)
- Support and funding of local authorities
- Independent study on social impact

Regional

- Recognition of the 3SR practice in sustainable building policies
- [RENO'ACC](#) regional network

National

- Award for territorial innovation

European

- Erasmus + [HELPS project](#) & Hands for homes network
- [Rural Inspiration Awards](#) in the 'Social Inclusion' category.
- Interreg Europe [good practice](#)
- [CEES project](#) with energy communities

Key lessons from and for other regions

Conditions for booming ?

More partners on territories implementing 3SR

Cooperation with a public or social partner with a budget

Practical and online trainings (transnational?)

Certification of competencies of 3SR practitioners (ECVET?)

Good promotion tools

Recognition of 3SR at EU level

Resources needed ?

Local or international funding

Trained Masons and WorkSite leaders

Social collaborators

Responsible persons in organizations for (coordination / networking)

Thank you!
