

PROJECT

AgSpeed

WELCOME

AgSpeed?

StrikeTwo is an practical Agtech and Agrifood accelerator program founded in the Netherlands (www.strikeTwosummit.com)

Make StrikeTwo better and European by uniting different Agtech and Agrifood programs under the name: AgSpeed

Lead partners

Open Food chain

Eu & Agrifood

The agricultural sector is one of the mainland users in Europe (39%)

The EU's goals are:

- Food security
- Reduce footprint
- Food system's resilience
- Global transition towards sustainability from farm to fork

Why AgSpeed

AgSpeed is here to speed up the food transition via Agtech and uniting the innovative agrifood industry.

We need to disseminate and implementing successful Agrifood solutions in the food industry and strengthening the food policy coherence.

AgSpeed Goals

- Join forces in 2023 for our first EU program
- Work together from 2023-2027
- From 2024 we will organize yearly: 3 AgSpeed EU programs with 8 tracks
- Collaboration between a minimum of 7 agrifood programs
- Have a minimum of 12 policy makers joining the project
- Minimum 1 solution per program should be useful for the policy makers
- There should be a business model created so that AgSpeed can continue without subsidy, after 4 years

What do we need

- We need to be accepted with our project into Interreg
- Policy makers who are interested in this project
- Policy makers who want to give feedback on our programs
- Agrifood programs who would like to join forces
