# **HOPE KIDS**

**Psychological stabilization and rehabilitation  
project for children affected by the war**

# Problem

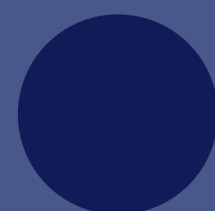

Lack of access to information about current opportunities for psychological rehabilitation

Lack of a single program for psychological rehabilitation according to the level of psychological trauma of children

Lack of information about the real consequences of russian terror for children of different ages

A financial barrier to obtaining quality psychological help

# Problem size

Children who were affected by the full scale invasion

7mil +

Children who lived in the war zone

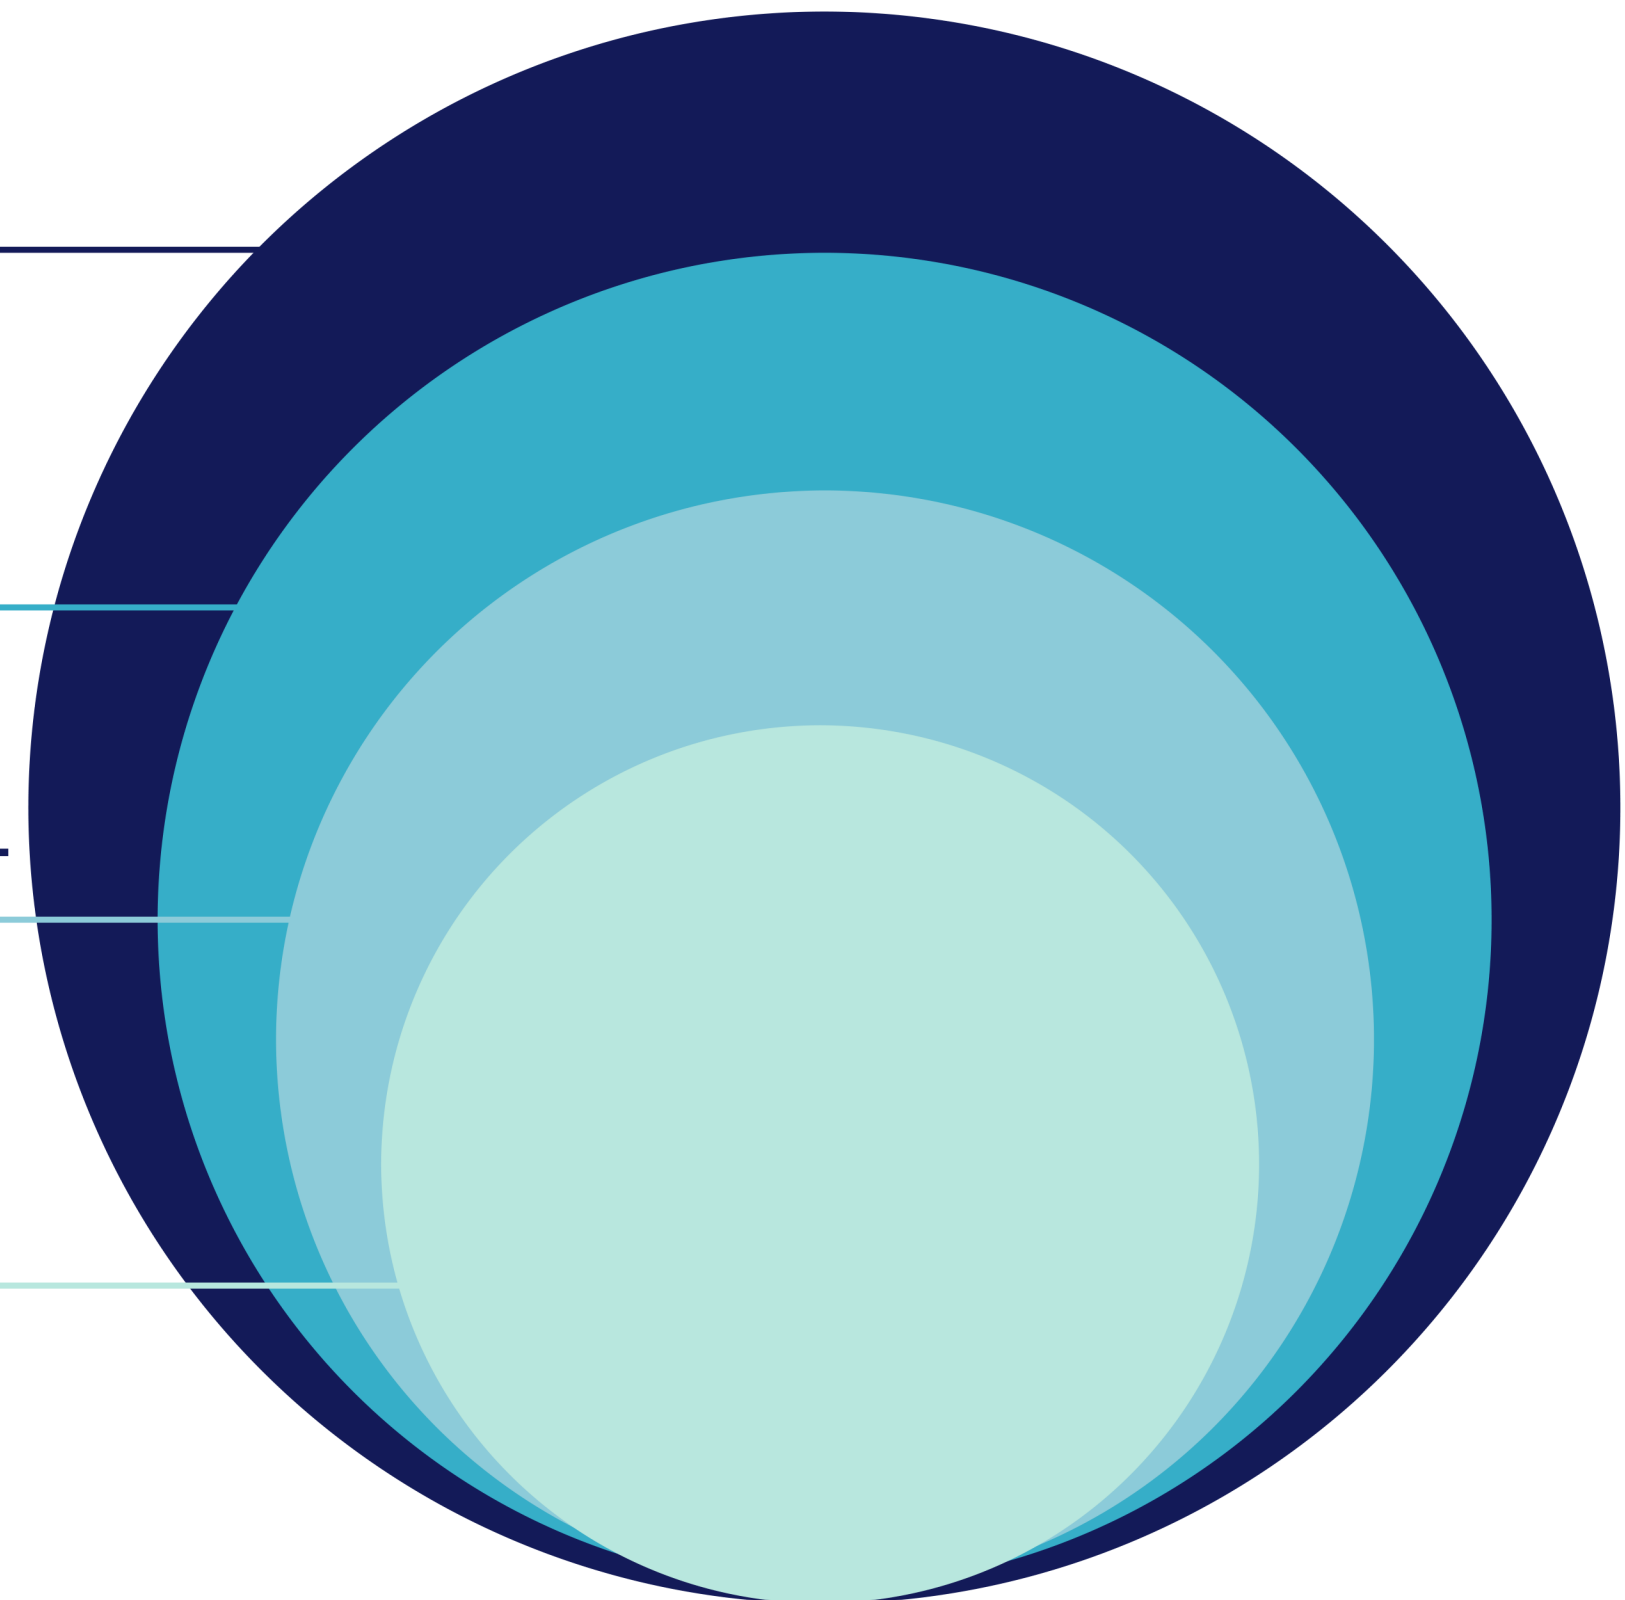

3mil +

Children who suffered losses due to the war

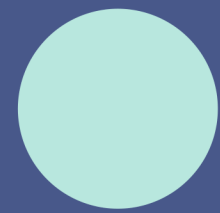

200 000+

Children who suffered trauma due to the war

26 000+

# Solution

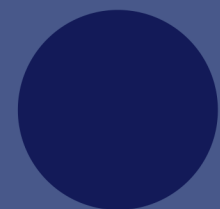

Collection and updating of data on children affected by russian aggression

Provision of direct psychological assistance and involvement in psychological rehabilitation of at least 1,000 children per month

Development of a system of psychological rehabilitation depending on the level of psychotrauma and damage to the child

Creation of a single center of psychological rehabilitation and implementation of the developed system in related organizations

# What is “Hope for kids”?

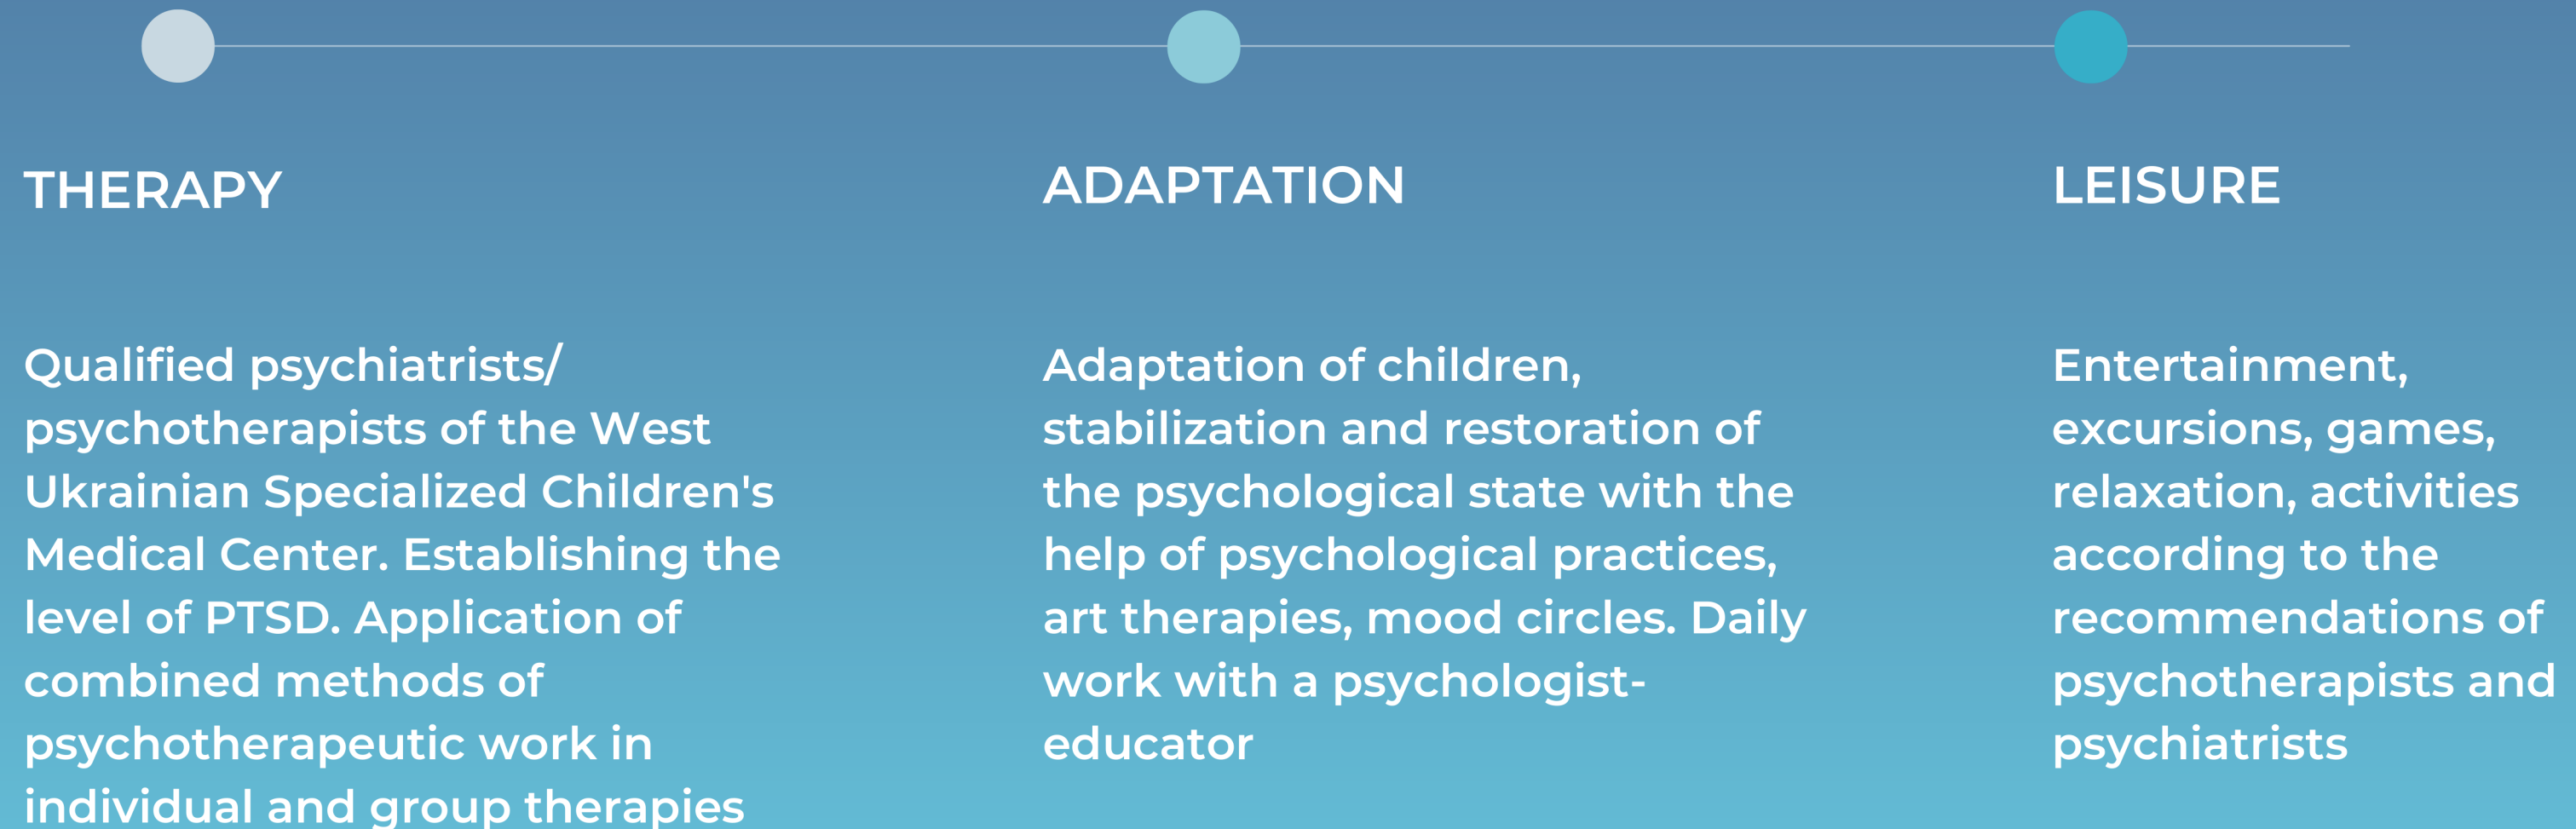

Psychological stabilization and rehabilitation of children, who underwent occupation, became victims or witnesses of violence, or suffer from post-traumatic stress disorder (PTSD) - program, carried out by qualified psychological specialists, with the aim of stabilizing, preserving or restoring mental health, achieving social and psychological well-being; reducing the frequency and severity of the consequences of war mental trauma in the form of acute stress reactions; prevention of aggressive and self-destructive behavior.

We currently locate the children's center in the Lviv region, in a recreation area. The center is based on a country recreation complex, equipped with therapy and study classrooms, areas for communication and liesure, medical offices and a bomb shelter.

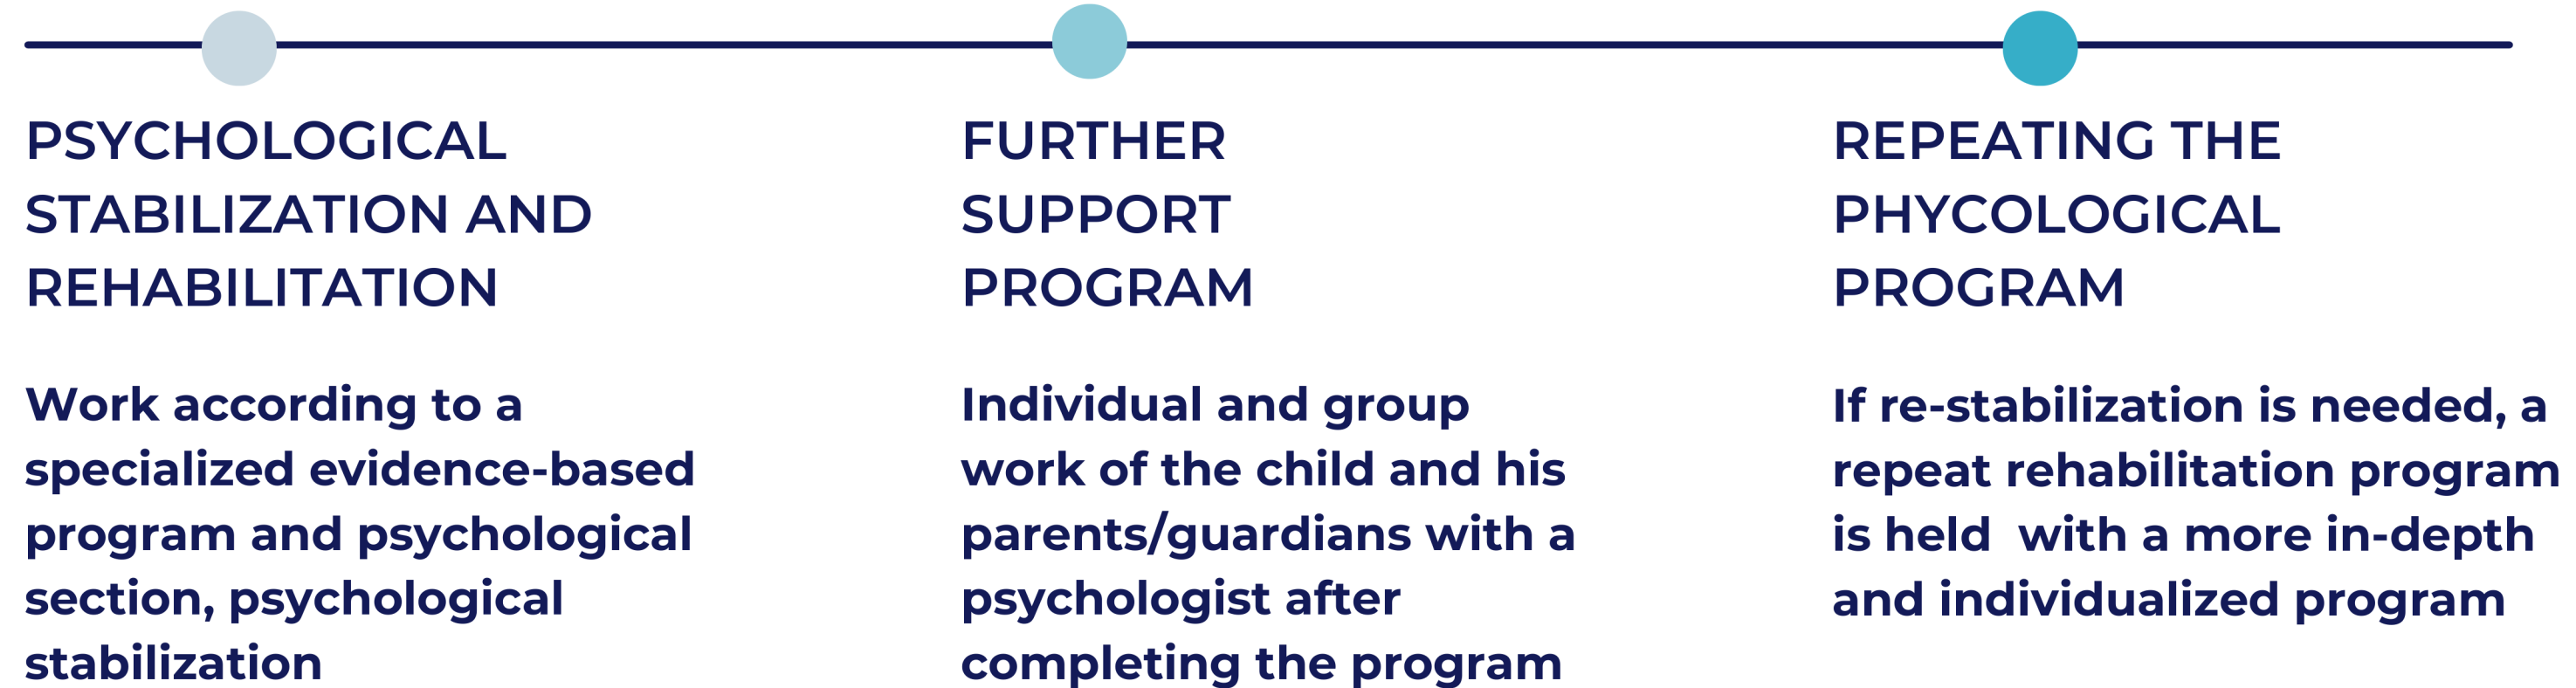

**from 7 to 15 years old**

the age of the children for whom the program was developed

**660 000\$**

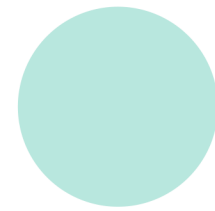

# The main goal of the project “Hope for Kids”

Our goal is to create a specialized center for the psychological stabilization and rehabilitation of children to help them realize and transform traumatic experiences into a driving force for the development of a peaceful future.

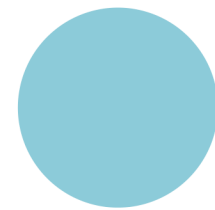

- Creation of a single state program of child support
- Reaching more children
- Long-term perspective
- Cost optimization

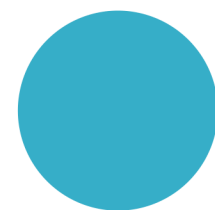

# The Future center “Hope for Kids”

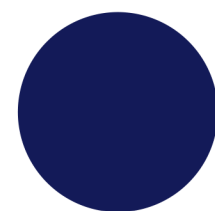

Located in the city of Zhuravno, Lviv Region, in the recreation area of the Arboretum near the Dniester River

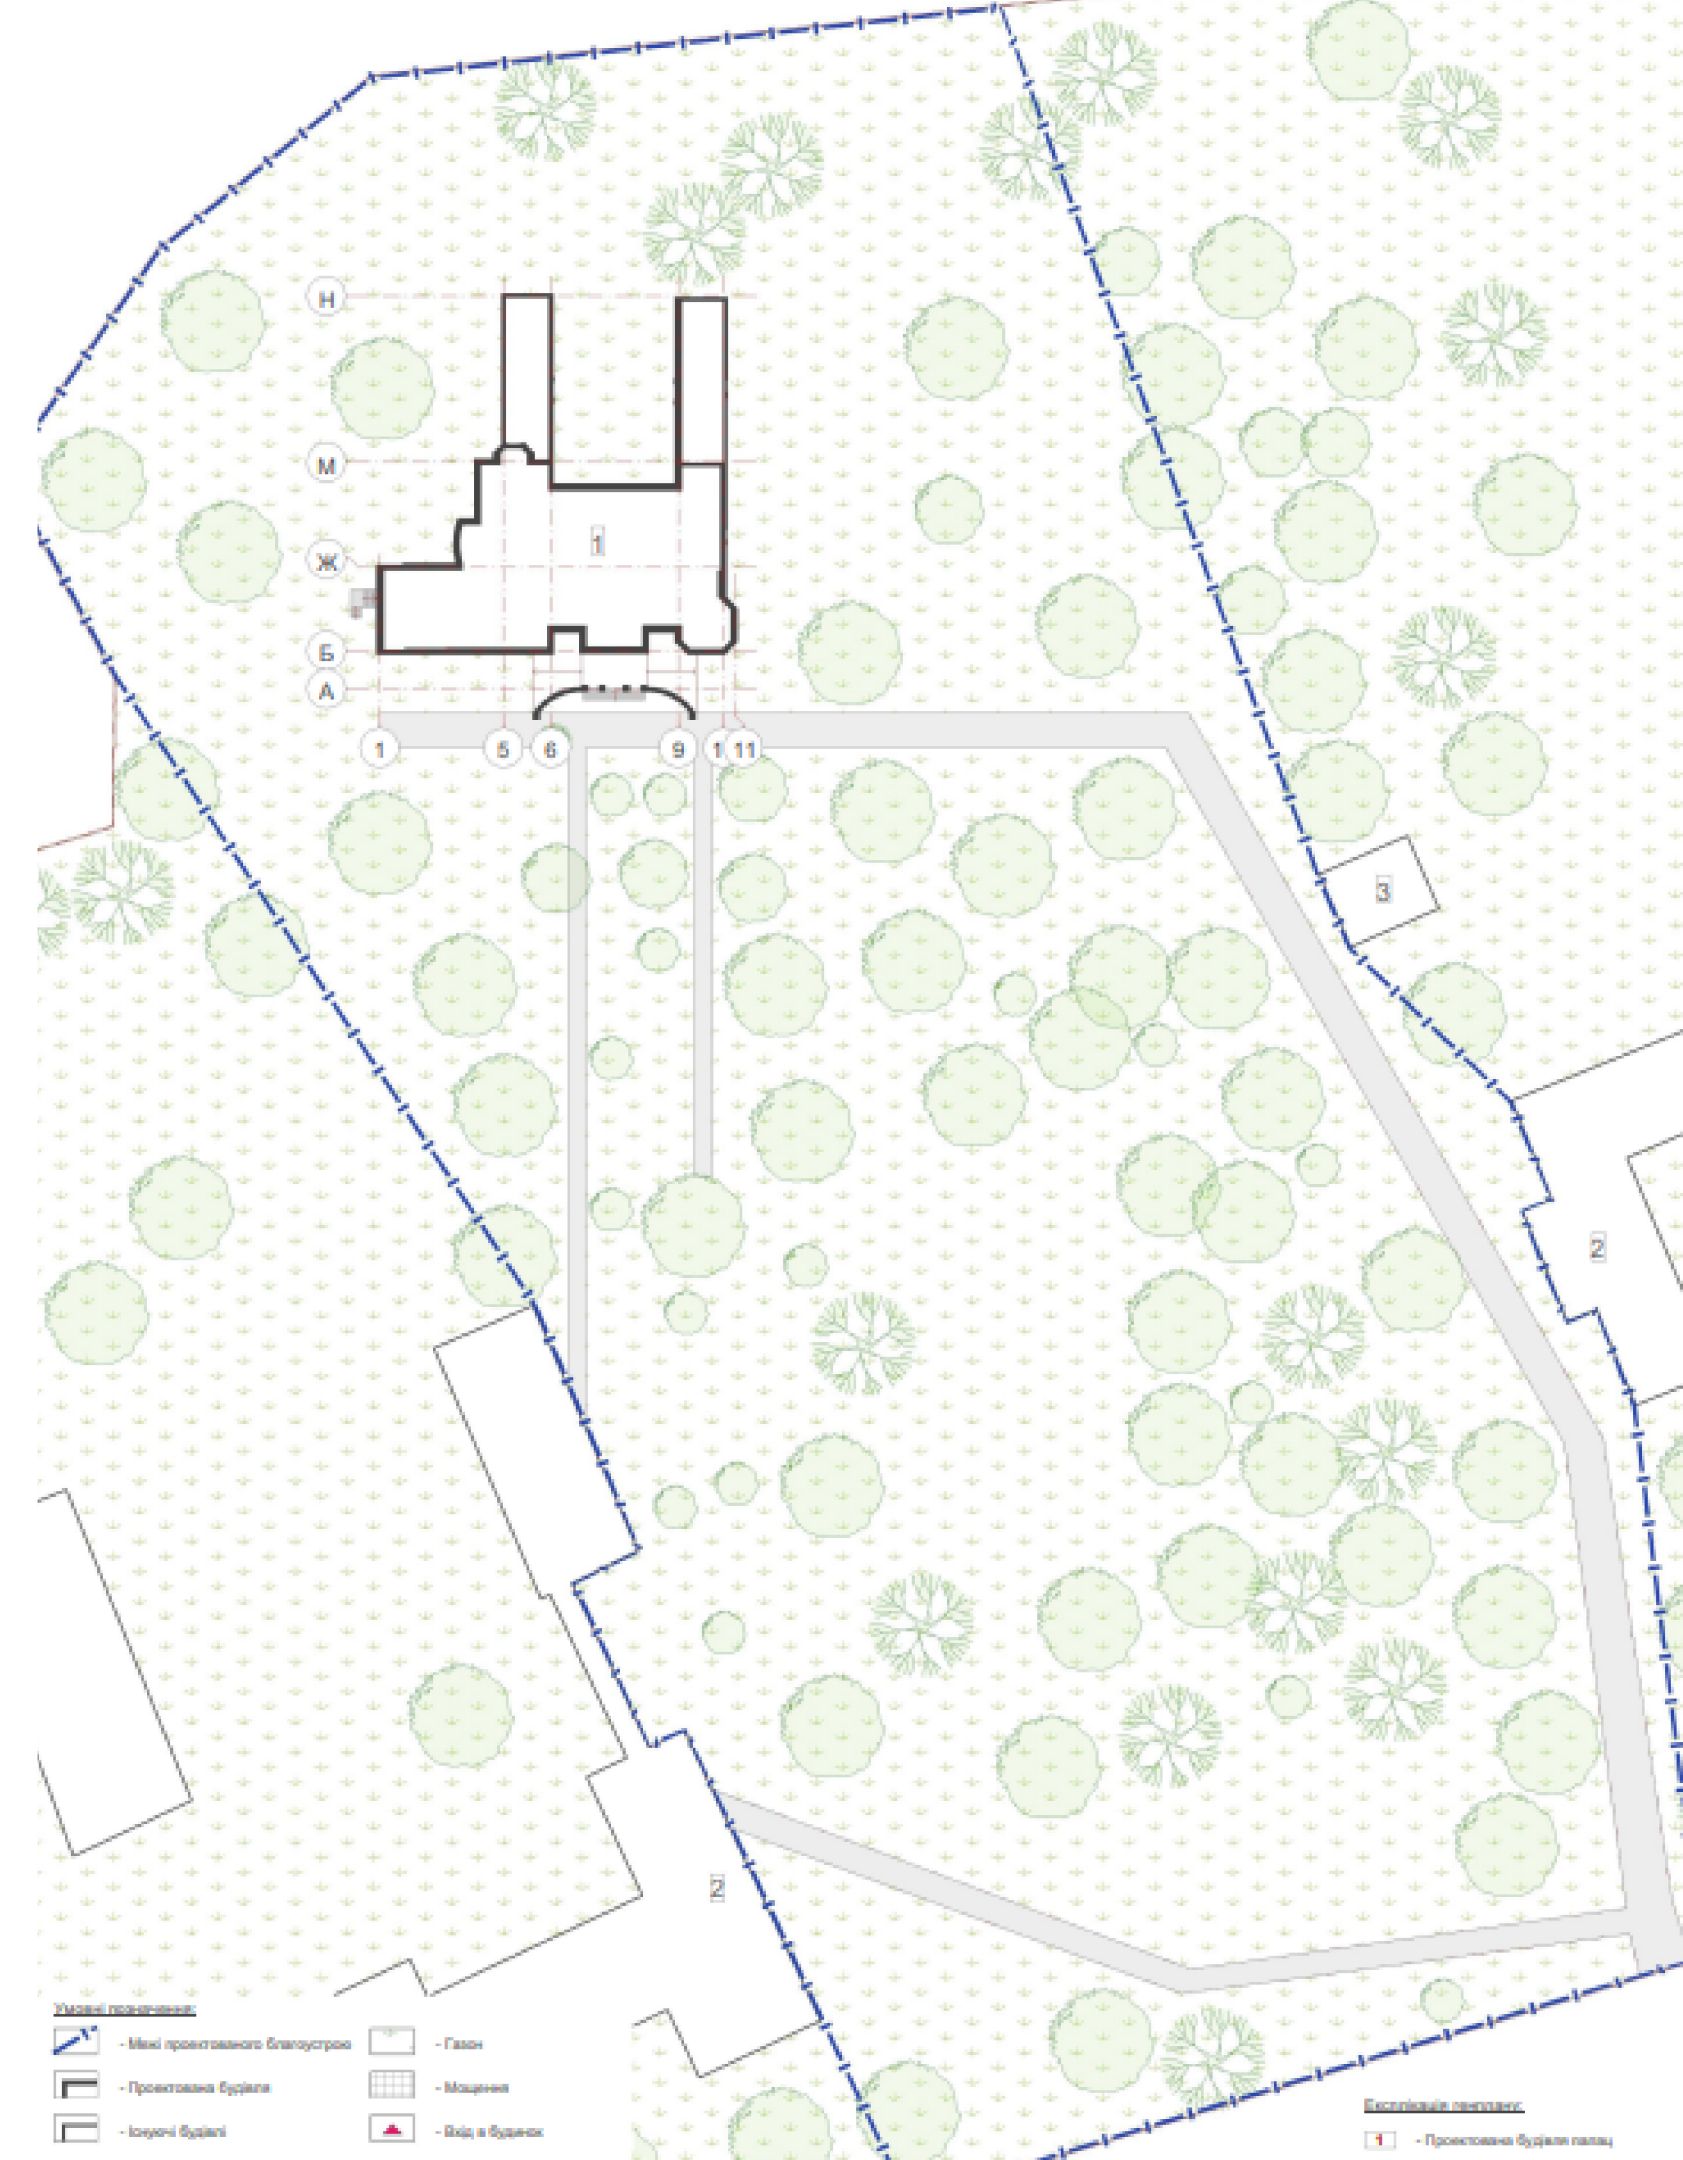

Monument of architectural significance with a total area of **2,7 hectares**

The total capacity of the building is 250 children, which makes it possible for about **3,000 children** to complete the psychological program per year

The total cost estimate of the project is **3 240 000 \$**
