

Hope Kids UA

90 CHILDREN UNDERWENT A PROGRAM OF PSYCHOLOGICAL STABILIZATION AND REHABILITATION

in 3 month

65 %

children were stabilized with the reduced level of anxiety, restored psycho-emotional balance and prevented aggressive and self-destructive behavior

30 %

children were sent to a supportive program of individual therapy with a specialist after completing the 21-day rehabilitation

100 %

children were prevented from developing psycho-trauma in the future through learning self-regulation, releasing and accepting emotions

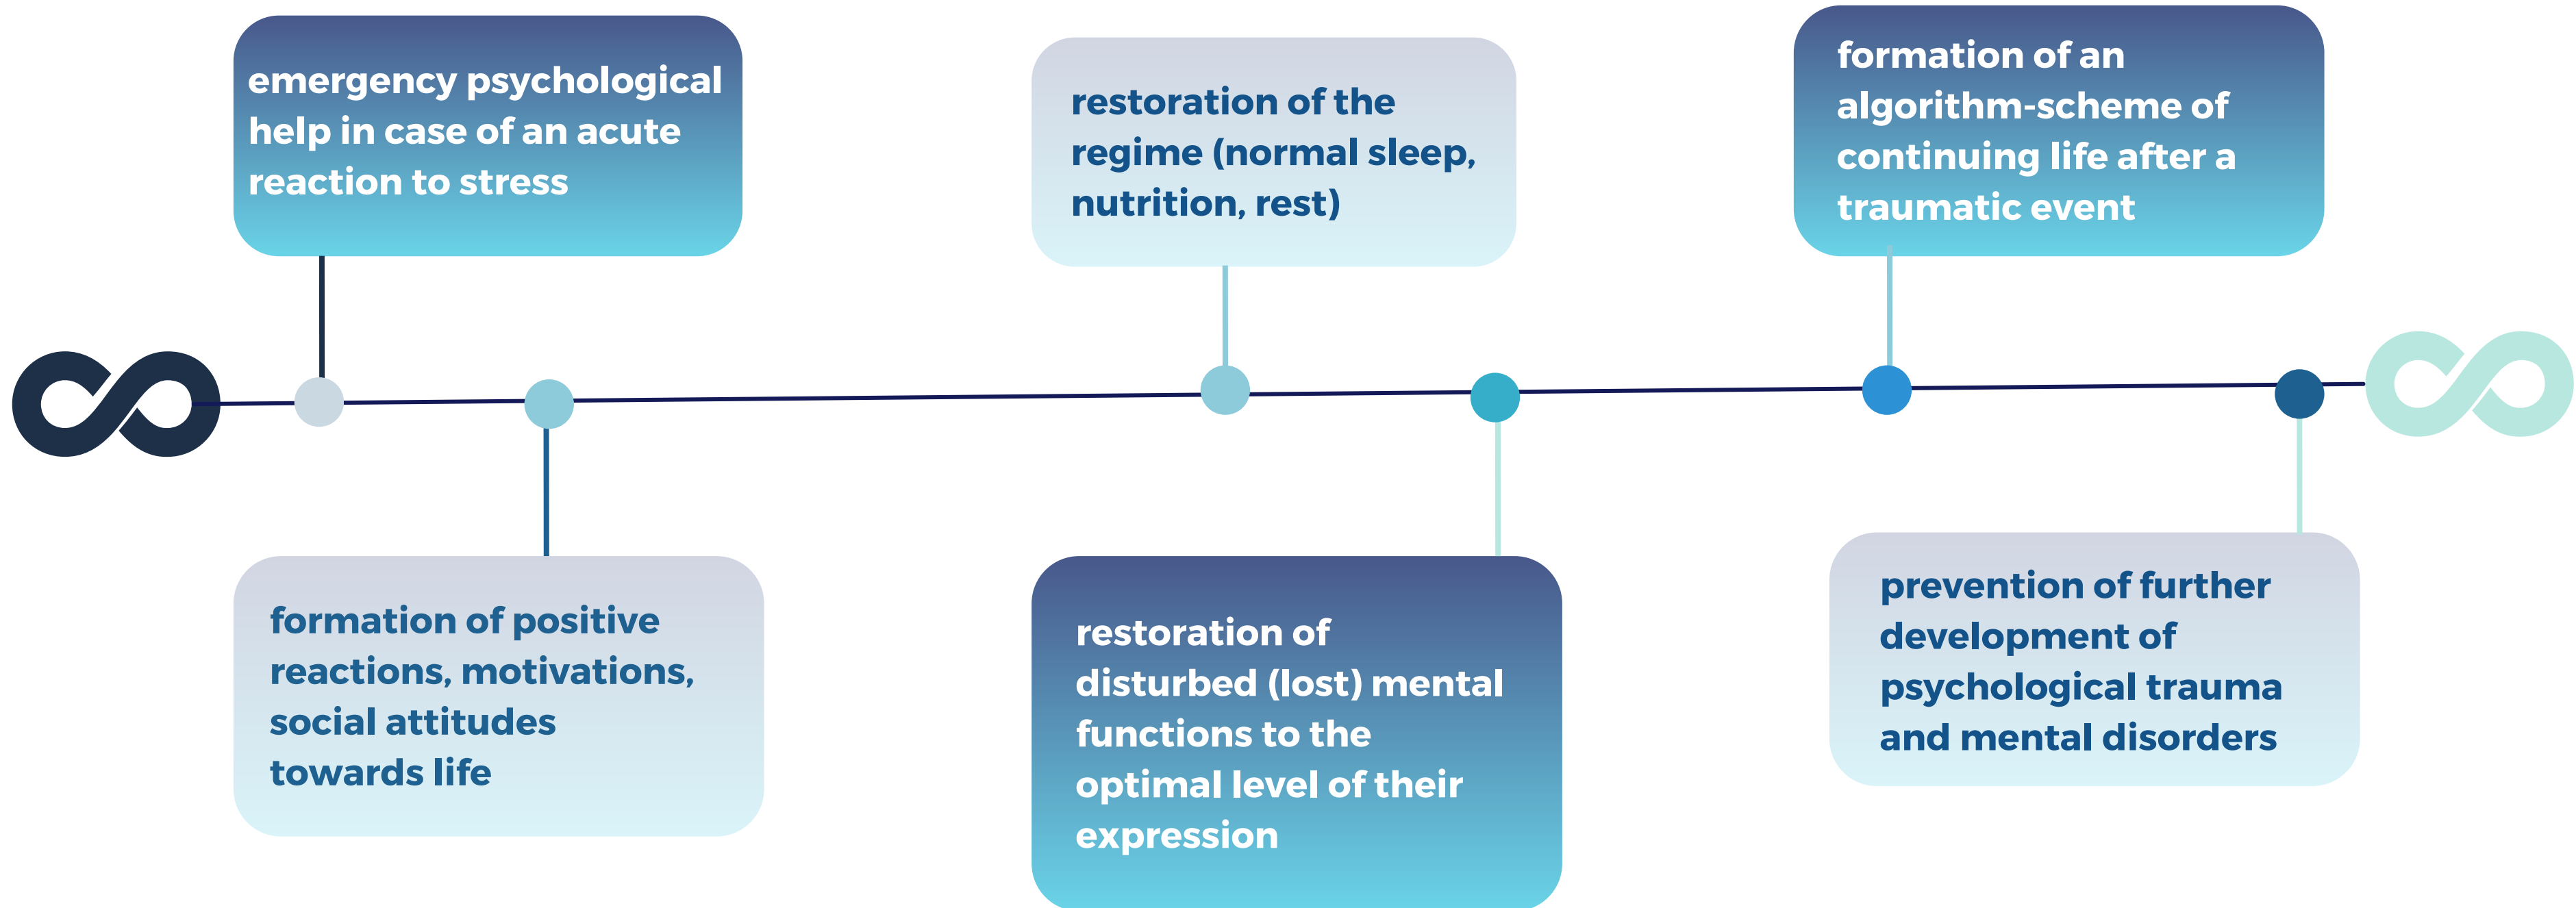

100 %

parents received a methodology and a step-by-step plan on how to act, react and engage with the child after the stabilization program

KEY POINTS

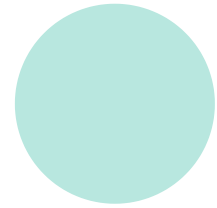

MAIN GOAL

Specialized center for the psychological stabilization and rehabilitation of children with war trauma

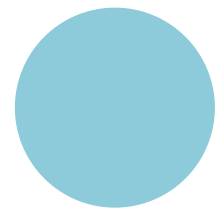

Having consolidated the efforts of the Lviv District Council and the Lviv Regional Administration, we found a place and developed a project for the reconstruction and creation of this institution

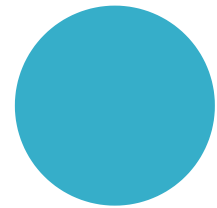

THE FUTURE CENTER

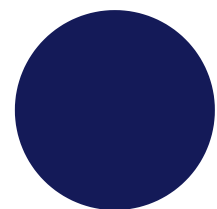

Located in the city of **Zhuravno**, Lviv Region, in the recreation area of the Arboretum near the Dniester River

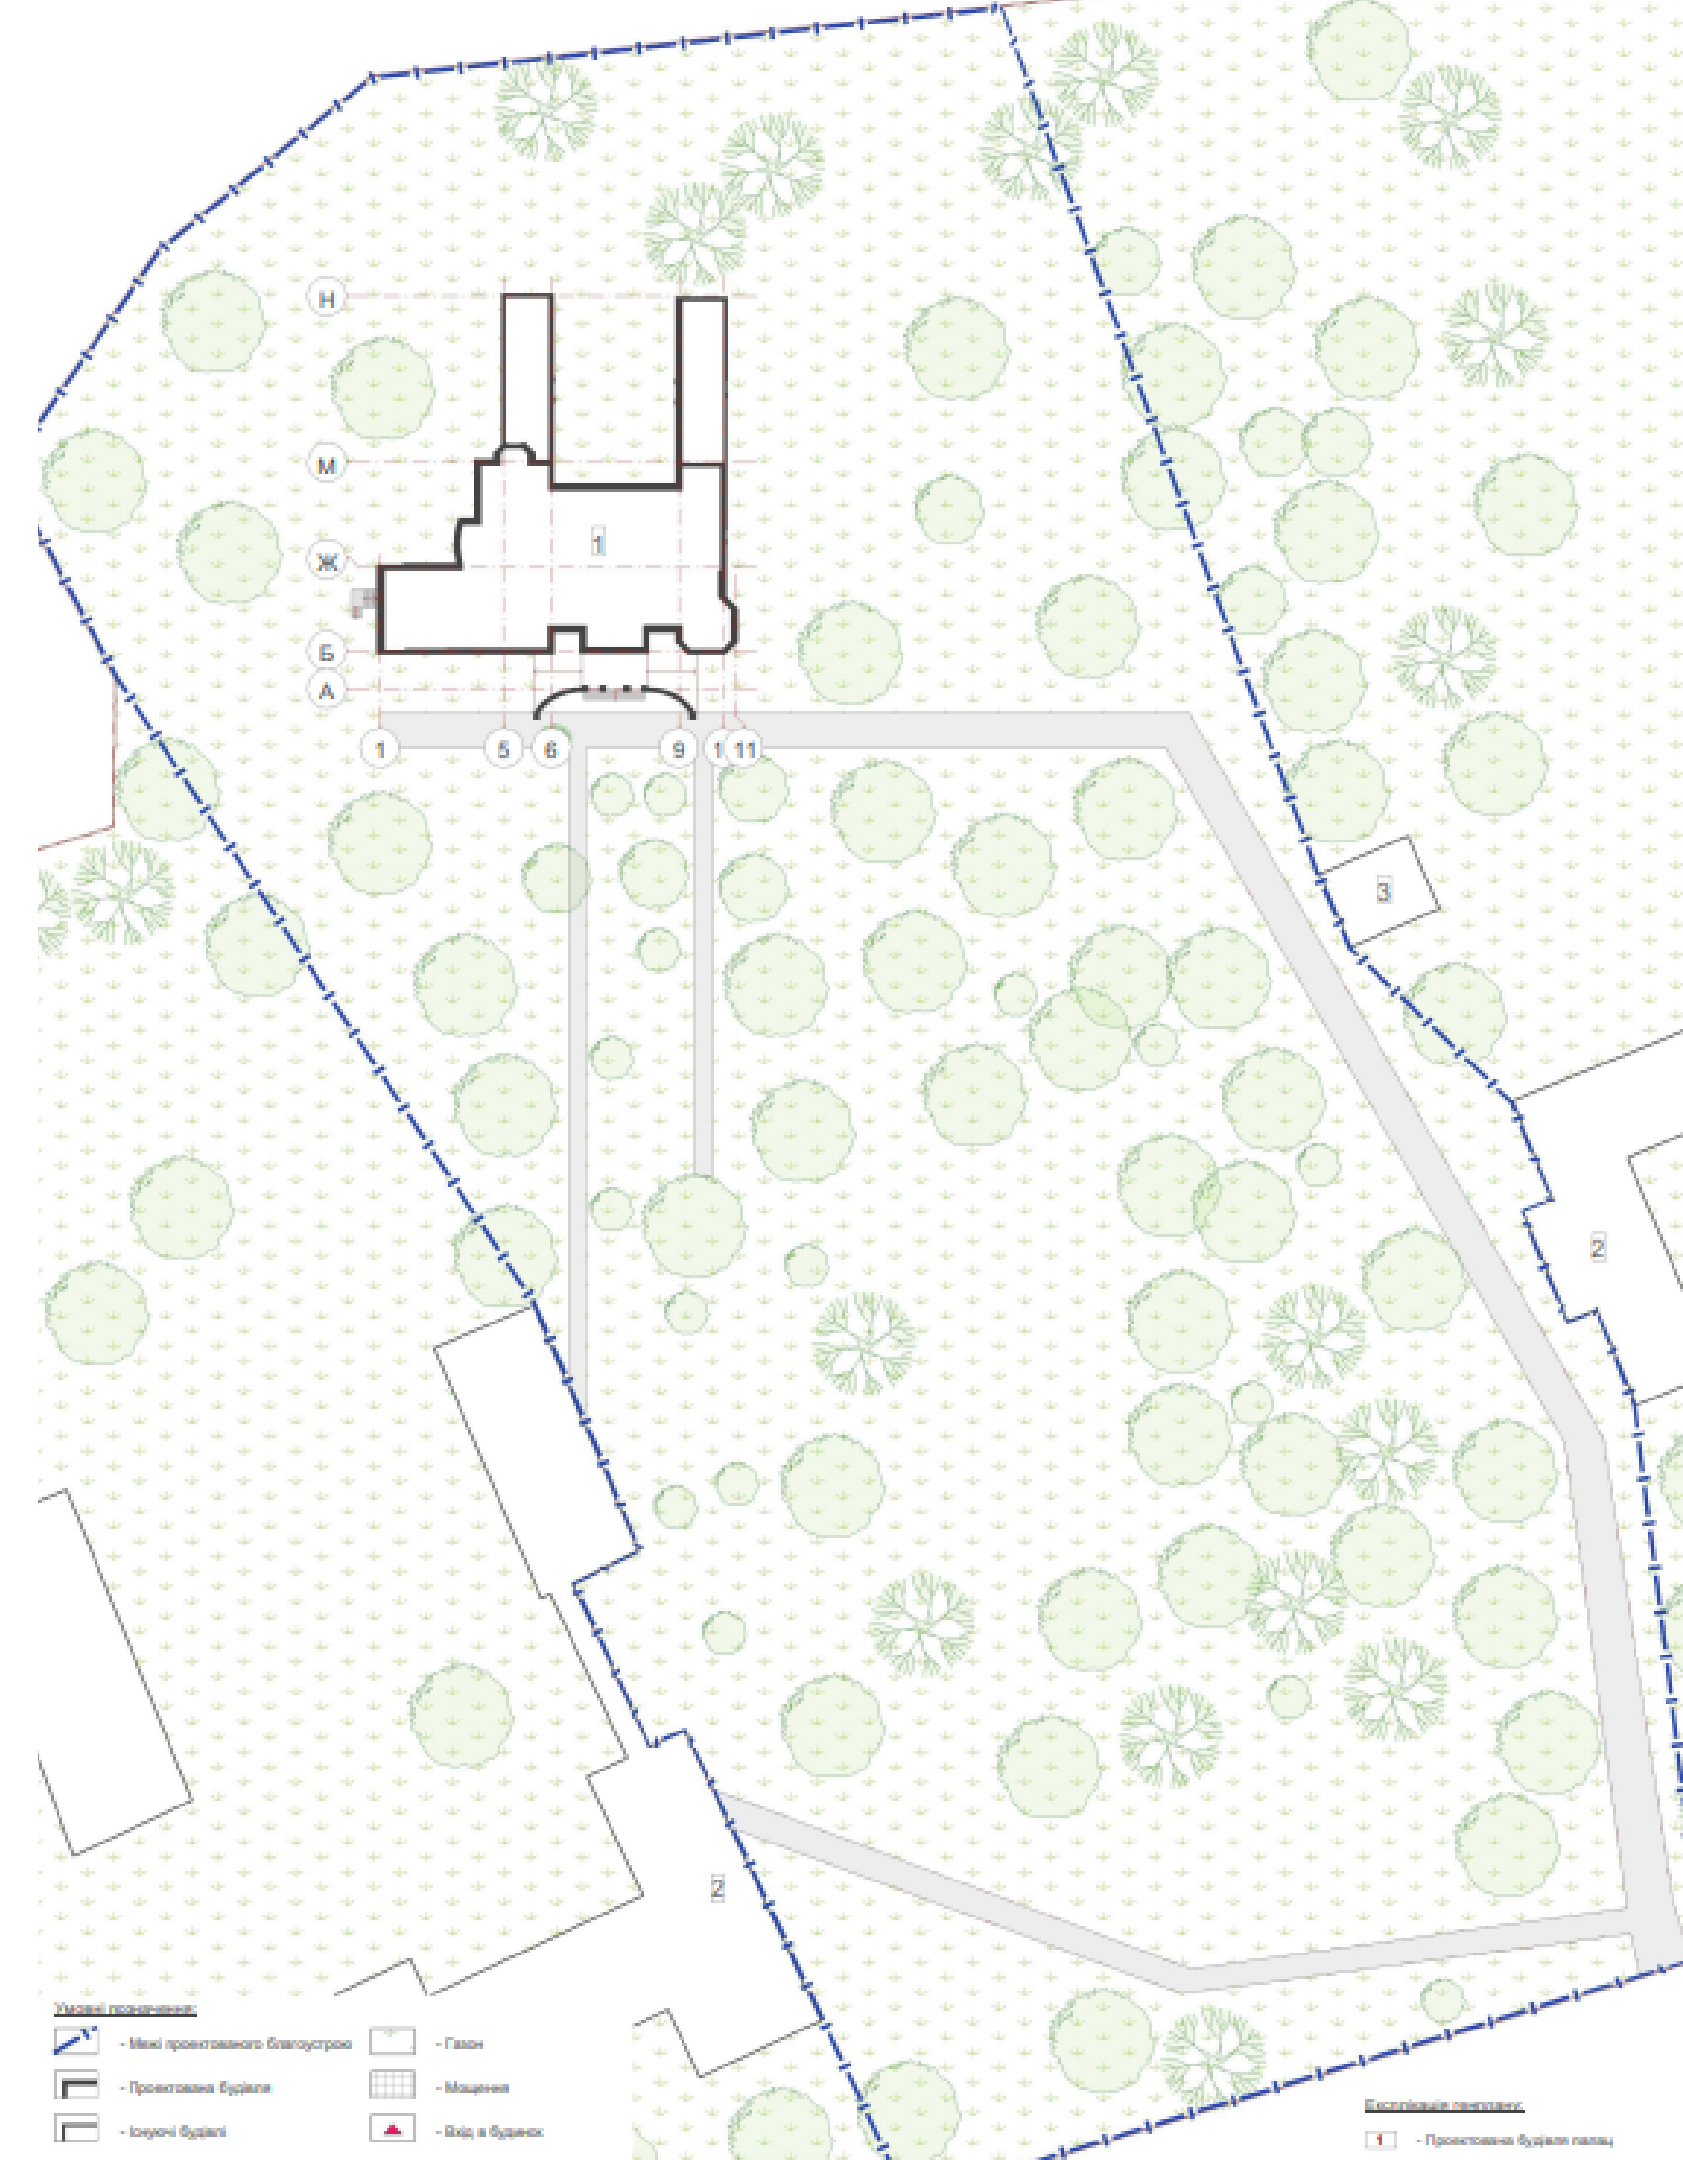

Monument of architectural significance with a total area of **2,7 hectares**

The total capacity of the building is **250 children**, which makes it possible for about **3,000 children** to complete the psychological program per year

The total cost estimate of the project is **3 240 000 \$**
