INERTWASTE

Formulario a stakeholders navarros para el TLJ

Este formulario pretende recoger información de actores clave navarros en relación a la temática de INERTWASTE, para presentar y debatir los resultados en la reunión de noviembre (día 1 sesión de la tarde). Como actor clave en este campo, valoramos tu experiencia y conocimientos, y creemos que tu contribución es importante.

Las respuestas nos permitirán evaluar los instrumentos públicos actuales, e identificar las barreras, vacíos y limitaciones más relevantes en Navarra.

Nos gustaría que dediques unos minutos a responder a las preguntas planteadas. Para favorecer que las respuestas sean lo más sinceras posible, el cuestionario será anónimo.

Muchas gracias, eskerrik asko.

QUESTIONNAIRE OF PUBLIC POLICIES IN NAVARRA: LEVEL OF RELEVANCE

Sustainability Jam Session. TLJ1

Navarra.

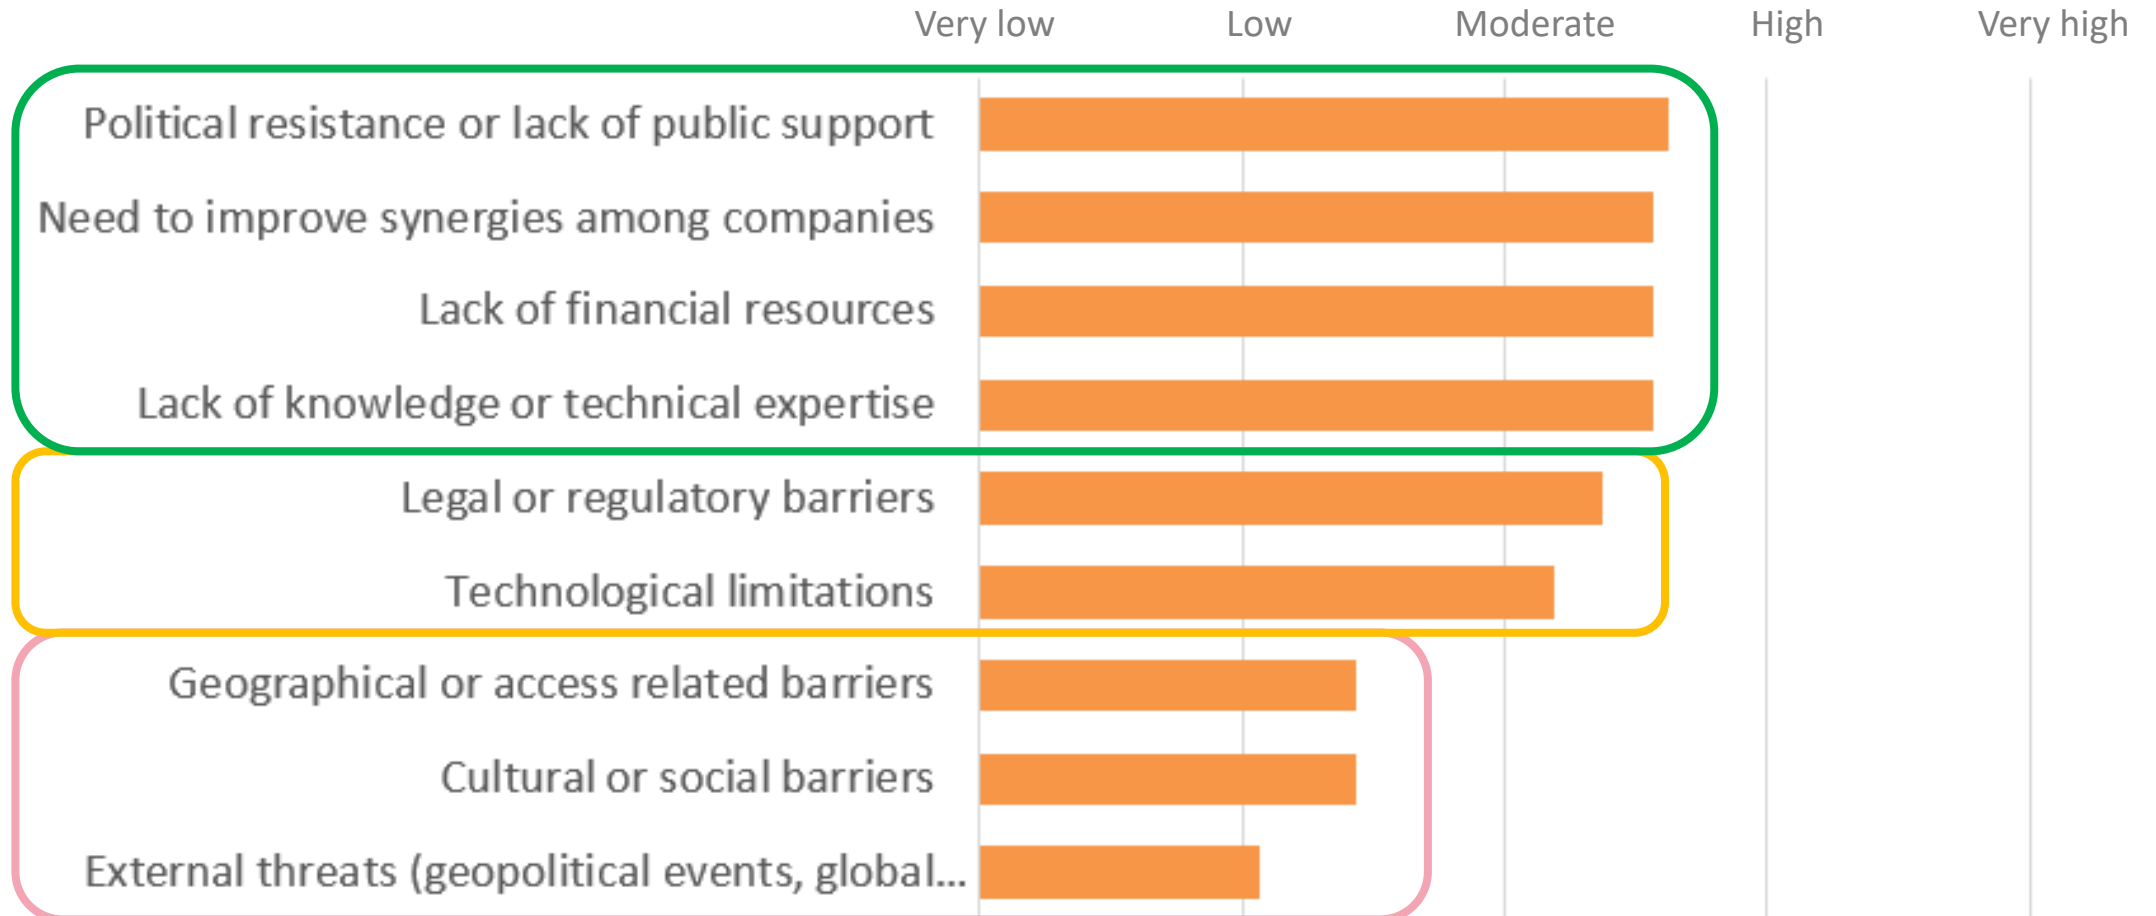

QUESTIONNAIRE OF PUBLIC POLICIES IN NAVARRA

- There are numerous public policies in place with acceptable scores (average of 3,8 over 5)
- **High level of effectiveness and urgency:** policies address problems of interest, which implementation should be carried out immediately, and they have the potential to effectively achieve the challenges they aim to solve
- **Moderate level of viability:** there are difficulties for implementation of those policies and there is room for improvement

QUESTIONNAIRE OF BARRIERS: LEVEL OF NEED OF IMPROVEMENT AND PRIORITY

Sustainability Jam Session. TLJ1

Navarra.

POINTS TO HIGHLIGHT

- Public policies are recognised as effective and urgent, which acknowledges the importance of addressing the challenge of valorising inert and inorganic waste.
- However, the assessment of their viability suggests that there are obstacles in their implementation.
- There is not one focal barrier to address, but rather multiple significant barriers at the same time.
