embrAIsme -
Improving Conditions and Policies for SMEs to embrace AI

The overall objective of embrAIsme is to improve policies and programmes for encouraging the uptake of AI by SMEs regardless of their location, size and sector.

The specific objectives are:
- Raise awareness of AI and increase data readiness
- Invest in human capital and skills
- Facilitate access to finance
- Foster networking and cooperation
- Strengthen the governance of AI/SME policies

Those will be ensured through an intense exchange, study visits and co-creation workshops.
