Newsletter #2 – SPOTLOG

Welcome to the second newsletter of the SPOTLOG project!

SPOTLOG (Green and Socially resPOnsible ciTy Logistics InnovaTions) aims to involve local communities in creating socially responsible logistics systems, based wherever possible on zero-carbon modes, through the intelligent use of all available resources and taking advantage of the digitalisation of goods and passenger transport services.

By focusing on low-density communities and medium-sized cities, SPOTLOG partners aim to improve regional policy instruments toward the European goals of inclusive and carbon-neutral mobility.

In this newsletter, you can find news and updates about what we have been working on within the project's main subject.

**Project meetings****SPOTLOG Steering Group meeting**

The second SPOTLOG Steering Group meeting was held during the Exchange of Experience event held in Rimini on 9 November. This meeting was mainly an occasion for project expectations alignments.

**SPOTLOG at the Interreg Project Training days!**

SPOTLOG attended the Project training days 2023 for first call projects organised by the Interreg Europe Programme on 26-28 September, in Lille, France.

The Interreg Europe project training days brought together the lead partners, finance managers and communication managers from 72 projects approved in the first call. Each day focused on a specific aspect of project implementation.
