# The Gov4Water Project

Gov4Water aims to enhance governance and integrated planning procedures for a climate responsive water management.

20 JULY 2024

# Gov4Water Mission

“Improving governance and rendering water planning climate responsive and future proof .”

Interreg Europe topic

# Gov4Water in a nutshell

**APR. 2024**  
**JUN. 2028**

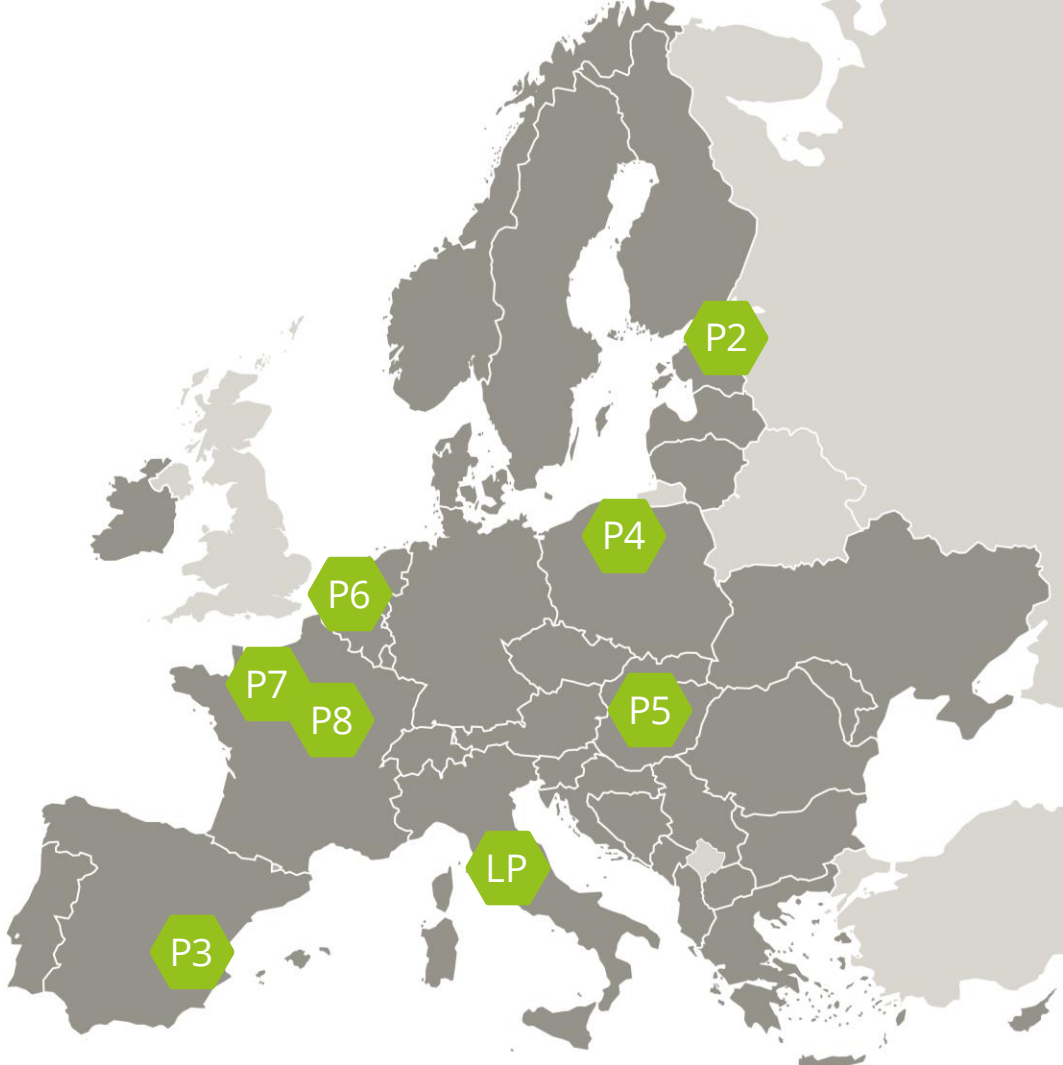

**EU FUNDING**  
**€ 1.46 M**

**8 PARTNERS**

# Gov4Water project partners

Umbrian Waste and Water Agency Italy	LP
Ministry of Climate Estonia	P2
Murcia Region Spain	P3
Lodzkie Region Poland	P4
Vas County Hungary	P5
Province West Flanders Belgium	P6
Loire Brittany water agency France	P7
Aquanova France	P8

# Gov4Water objectives

Identify gaps  
in current **water  
management.**

Find innovative  
techniques &  
strategies for good  
quality water in  
times of **climate  
change.**

Improve  
**coordination &  
collaboration**  
of all actors.

# Gov4Water objectives

Reduce water consumption.

Integrate adaptation and resilience.

Render policy instruments prescriptive and effective.

# Gov4Water activities

## Knowledge research

Drafting of living papers on the state of art of water management in the partners region.

Joint  
Analytical  
Report

## Interregional seminars & Study visits

Explore, learn and implement regional practices.

## Workshop Regional Stakeholders

Reorganisation and intensification of Governance and Planning structures.

# Gov4Water activities

## Intensive workshop & Staff exchange

Deeply learn from experts and staff from the partners region.

## Good practices

Collect and analyse good practices for adapting water management to climate change.

## Policy improvement

Step-by-step process to embed innovative practices into regional policies.
