

# TEXAD

**GREEN**  
Circular  
economy

An interregional cooperation project  
for improving **Circular economy** policies.

**TEXAD** work methods conducting a deep assessment of textile waste in each territory, and mapping of the key agents in the territory, will contribute to suggesting adapted updates in the municipal policy instruments towards a circular model. The planned visits are one of the project instruments of sharing identified good practices.

### Project Partners

#### City of Borås (SE)

Agrupació Catalana del Tèxtil i la Moda Ajuntament de Mataró (ES)

Enschede Municipality (NL)

Prato Municipality (IT)

Rzeszow Regional Development Agency (PL)

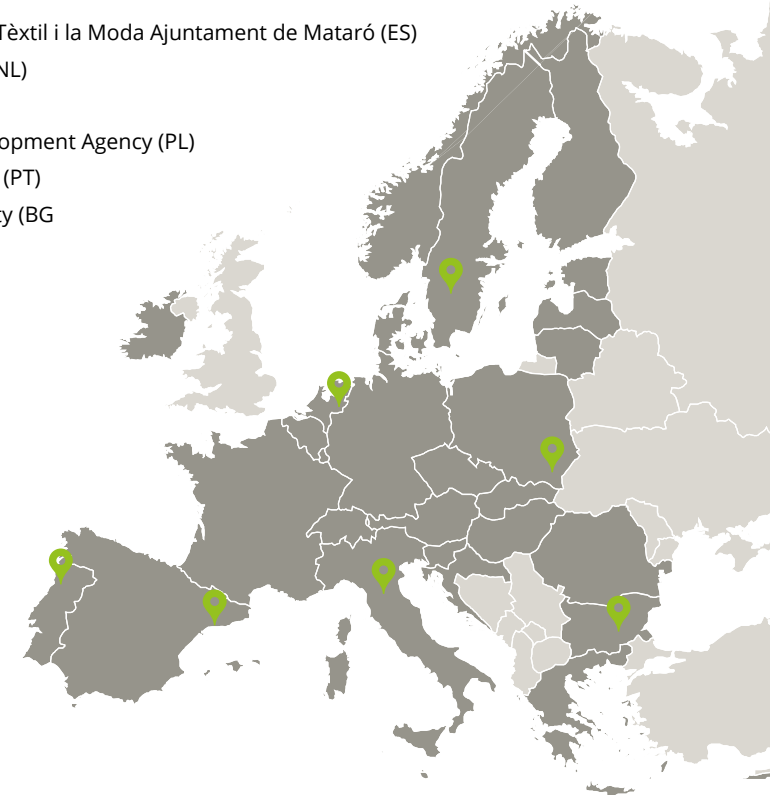

Santo Tirso Municipality (PT)

Stara Zagora Municipality (BG)

**TEXAD** improves developing municipalities' policy instruments treating textile waste in circular models to fully exploit the benefits of green growth.

TEXAD aims at improving & driving the municipal policy instruments towards a circular model. Doing this we contribute to prevention, proper sorting, collection & valorisation of textile waste to transform it again, into a product or secondary raw material.

The focus will be on policy instruments dealing with waste management. This means waste prevention, separate collection, logistics, sorting, smart waste technologies, valorisation, consumer awareness.
