- Community Growth
 - The program contributes to reducing youth unemployment and fostering a skilled tech community in Šibenik
- Sustainability
 - Continuous program iterations ensure alignment with industry trends and participant needs.

TROKUT ŠIBENIK

Trokut NEET ACADEMY

What We've Learned: Inclusion Beyond the Curriculum

- Many participants had low confidence or prior negative experiences with formal education
- Personal mentoring, small-group formats, and flexibility in pace made a big difference
- Participants valued community and belonging as much as hard skills
- Empowerment came not just from employment potential, but from being seen, heard, and supported
