

TRAKK – Creative Hub of Namur

Smart Specialisation Creative Districts project

Smart Specialisation Creative Districts project

Main objective: to align territorial public policy agendas to support the development of more efficient CCl policies in territories aiming to generate innovation and economic development in relation with their Smart Specialisation Strategy

For Wallonia: to support creative ecosystems such as the Creative Hubs and to develop further the coherence between the regional policy and the local specificities of each hub so that it can contribute to the Walloon Smart Specialisation Strategy
